Vote for

ROBERT G. SIMMONS

for

UNITED STATES SENATOR

Ten years in Congress fits him for immediate service in the Senate.

SIMMONS SAYS:

"The processing tax on hogs should be removed and assurance given the cattle industry that no processing tax will be levied upon cattle."

"We can have no permanent recovery until the energies of the government are directed toward increasing consumption and not toward decreasing production."

"A program of reduced production means essentially a program of reduced consumption, and is in effect a government directed boycott against the laborer, the mechanic, the business man. It starts a whole vicious cycle of depression, fewer jobs, less activity and prolonged poverty."

"The government should not foster but should oppose trusts, monopolies and combinations in restraint of trade. This nation should not turn back temporarily or permanently from that policy."

"Big business welcomed and wants to fasten the N. R. A. and its monopoly codes permanently upon America."

"The whole economic life of the nation is in the dictatorial power of the N. R. A. and its coterie of officials under General Johnson."

"I propose that the government shall take the tax eaters off the backs of the producing class in the country."

It is hard to comprehend the army of over 500,000 people in the government civil service."

"There are over 60,000 more civil service permanent employees on the government pay rolls now than when this administration went into power. This number is in excess of and does not include the tens of thousands of employees that are working under the 37 or more alphabetical commissions and bureaus that have been set up during the last 12 months."

"It is authoritively stated that if the Federal government took all of the income of the people of the country above \$25,000 a year and a large part of the incomes under \$25,000, it still would not collect enough money to pay the expenditures now being incurred."

WHO IS SIMMONS?

Congressman for 10 years from the Big Sixth District.

During that time he served all parts of Nebraska. His experience in Washington prepares him for immediate service.

Born and reared in western Nebraska, and educated in Nebraska schools.

He knows and will serve all parts of Nebraska.

VOTE FOR EXPERIENCE--NOT EXPERIMENTS

NOTICE TO TAXPAYERS!

At the last session of the state legislature the House passed H. R. 510 to reduce county officials' salaries 20 per cent. Senator Chris Andersen helped to defeat this bill. The bill was amended to 15 and even 10 per cent reduction of officials' salaries and again Senator Andersen voted against it. Defeat of the original bill certainly does not help overburdened taxpayers of farm and home property.

Senator Andersen voted for S. F. 212 which is a weak and worthless law for the consumer of electrical energy. This law DOES NOT COMPEL power companies TO PUBLISH RATES. It easively provides that there will be no penalty for delinquent payment of light bills. Then, by allowing a discount—just another word for penalty—some companies have raised their bills 25 per cent which is a worse penalty than before. This kind of legislation only helps the power trust. I criticized Senator Andersen for voting for this bill and he admitted in writing that it was a very weak law for the consumer.

Doesn't it look foolish for a state senator to father a bill, S. F. 53, that abolished some obsolete laws, and then, turn right around and vote for a law that is worse than obsolete because he admits that it is weak and therefore worthless to the consumer?

If elected I promise to work for: 1. Reduction of taxes that means CURTAILING EXPENSE; 2. A fair and LEGAL distribution of federal road funds for ALL COUNTIES; 3. Lower rates for light and power.

NOMINATE A MAN YOU CAN ELECT AND VOTE FOR

O. A. RALSTON
Democratic Candidate For STATE SENATOR
