The following program was given: Roll Call—Xmas suggestions. Book Review, "Mary Peters" by Ellen Chase—Miss Hazel McDonald. At the close of the program Mrs. Wrede served luncheon. The Club members, also husbands and brothers, will have a 7 o'clock bridge dinner December 12 at the home of Mr. and Mrs. Irven Simonson.

YOU PAY THE BILL

According to a recent survey, the total cost of government in the United States during 1934 will be about \$17,000,000,000. Seven billion of this is being spent by the federal government, \$2,000,000,000 by the states, and \$8,000,000,000 by local governments. In 1933, the total national income was slightly in excess of \$40,000,000,000. Most economists believe that the 1934 figure will be about the same. As a result, government spending for the current year will amount to 42 per cent of all the money we receive. The fact that part of the expenditures are being made with the aid of bond issues, which will not have to be paid until some future date, does not affect the principle at stake. The main fact is that cost of government is reaching the point where it will exceed the ability of the public to pay. A substantial part of the cost of everything we buy is represented by taxes. Taxes are part of the cost of a glass of beer or a gallon of gas; of a fur coat or a pair of shoes, of a town-car or a coffee pot. The manufacturer who makes an article, the middleman who distributes it, the dealer who sells it—all are heavily taxed, and each must pass his taxes on to the ultimate consumer—you. It is to your interest, whether worker or employer, to demand that all branches of government cut expenses, precisely as businesses and individuals have been forced to do in order to survive.

BRIEFLY STATED

Senator-elect Frank Brady, of Atkinson, was in the city for a few hours last Monday.
