THE NEBRASKA SCENE

by James R. Lowell

As the political season draws nearer, political prognosticators are shifting sights from rumors to analysis. Some of the practical politicians whose business it is to find available candidates are saying that Supreme Judge L. B. Day is just the man to propose for a high state or national office.

These leaders who attend to the details of the political machinery have discovered that Judge Day is remarkably well equipped for the United States senate or the governorship, and from their practical standpoint his vote-getting ability is impressive.

Last fall Judge Day was not opposed when he ran for election; on the contrary there were 800 lawyers in Omaha of whom practically every one signed a petition favoring his candidacy. It is a maxim that the worth of a man is best known to his own craft.

Besides, they point out, he was raised on a Boone county farm which he now owns and on which he spends summer vacations. It is true that because of his own farm experience during the depression, he knows just what the Nebraska farmer is up against.

Recent developments on the relief front reveal that Nebraska is slated to get \$23,000,000 of the \$42,954,000 WPA funds she has asked for. Farm-to-market roads are being stressed on state programs but it is difficult to find enough workers on relief in some Nebraska counties.

Consumption of gasoline in Nebraska and New York states which increased their gasoline tax rates early this year, has been substantially lower since the higher rates became effective, it is reported by the American Petroleum Industries Committee.

Nebraska is one of three states to show a loss in the first half of 1935, consumption declining 4,750,000 gallons, or from 108,468,000 in the first half of 1934 to 103,718,000 in the first half of 1935. Neighboring states reported increases.

655 and 21,153. South Dakota registered 8,767 new cars for the seven months and 4,141 a year ago. Wyoming registered 4,177 as against 2,698 a year ago for the same period.

In the matter of trucks, Nebraska registered 4,066 during the first seven months of 1935 as against 3,258 for the same period a year ago. Colorado registered 3,477 and 3,002; Iowa 7,743 and \$,700; Kansas 6,545 and 4,783; Missouri 10,302 and 8,164; South Dakota 1,848 and 1,009; and Wyoming 1,365 and 1,004.

The Nebraska state fair, which hit rock bottom with agriculture during the depression, has regained solvency along with farming, according to figures released after the last fair. The fair has paid all its bills, met interest on its bonds and even has a slight surplus.

Notes On the Free Day: Mayor Kersbrock delivered a fine address of welcome to the Norfolk delegation on the radio (mobile) and turned over the keys of the city to the Norfolk visitors.

Editor Gardiner, of the Elgin Review, came up with the Norfolk bunch on their special train. In a conversation with the writer he said that he had never seen as many people gathered in one block as there were on the block between

Fourth and Fifth street on Douglas, during the concert by the Knights of Siam band and the drill of the Norfolk Drum and Bugle corps. The block west, between Third and Fourth was just as densely packed. He was convinced that everyone was having a good time.

The little folks had the time of their lives Wednesday, in fact they were having so much fun riding the little cars that many of the big ones envied them, wishing they could also have a car ride.

IT'S UNUSUAL: These days of rising prices, but Gamble's Battery prices are lower and Super-Active Batteries are guaranteed a full two years of service. 51 powerful plates, \$6.59 each, only 27c per month for Power, Light and Radio.

Word comes from Blair that Dr. C. H. Lubker, who was a resident of this city for about ten years, but who left here a couple of months ago for Blair, has about decided to move back to O'Neill.

Mr. and Mrs. W. G. Beha returned last Saturday from a weeks visit in Southern Missouri. They left here a week ago Saturday, drove to Omaha where they visited a day and then accompanied by their daughter, Miss Nan, and son, Matt, they left for St. Louis, Mo., where they visited a few days and then visited the birth place of Mr. Beha at Boneville, Mo., and the birthplace of Mrs. Beha at California, Mo., then back home.

Mr. and Mrs. Hans Egger, and Earl Egger, of Columbus, came up to O'Neill last Saturday for a visit at the home of Mrs. Egger's mother, Mrs. Goldie Liddy. Hans, and his brother, Earl, returned to Columbus that evening, and Mrs. Egger remained here for a month's visit with friends and relatives.

Mr. and Mrs. Arthur Ryan and Jack and Roberta Arbuthnot left for Omaha Wednesday morning where Mr. Ryan will enter a hospital for medical treatment. Arthur has been in poor health for the past five months, in fact so poorly that he has had a substitute on his mil route for some time.

Mrs. Letta Sexsmith received word the first of the week that her daughter, Miss Velma, who has been employed in the Barnes hospital at St. Louis for the past year and a half, has been selected as head nurse of the second floor in the University hospital at Omaha, and will take over her new position on October 7.

It is a strange fact that on Free Day here, Wednesday, cars with licenses from Kansas, Wyoming, South Dakota and Iowa were here and it should be interesting to know whether or not these machines were driven here expressly for the big day or whether they happened along on numerous highways and remained to see some of Holt county whoopee. "You fellows should leave the L out of Holt county," a stranger remarked here about a year ago.

THE FRONTIER NATIONAL BANK: Capital, Surplus and Undivided Profits, \$125,000.00. This bank carries no indebtedness of officers or stockholders.

Cubs Look Sure For Nat. League Pennant: The battle for the national league baseball pennant, which has been a strenuous contest for several weeks between the Chicago Cubs and the St. Louis Cardinals, is about over. There are still four

games to play and the Cubs will have to win all four of them to tie the Cubs, while the Cubs need only one to win and the way they have been going the past three weeks that should not be a hard thing to do.

Must Have Twenty-five Per cent of Hog Base: Many inquiries are coming into the county agent's office regarding the minimum requirement on hogs and corn. Any producer who does not have 25 per cent of his hog base and his corn base will automatically have his contract cancelled as it is not the intention of the government to pay on contracts where there is an indication the producer is retiring from active corn and hog production.
