VOL. LVI.

O'NEILL, NEBRASKA, THURSDAY, OCTOBER 10, 1935.

202 FROM O'NEILL ENTERTAINED BY KNIGHTS OF SIAM

Those In Crowd Enjoy Themselves In Spite of Cold, With Plenty of Food and Drink.

The good will excursion last Thursday afternoon to Norfolk by 202 persons was carried out withreached the headquarters city of city for a longer stay. the Knights of Siam at about 6 o'clock p. m., after a two-hour ride doubly enjoyable by the local schools band and the O'Neill German band in rendering selections they alighted from the train. as the train halted or slowed at stations between here and Norfolk.

At the South Norfolk station a to the east center of Norfolk where the sidewalks. a parade started west, traveling or John Kersenbrock of O'Neill, and the length, or width of Norfolk, Mayor J. R. Carter of Norfolk. one hundred feet decline to the magnificent park of Dr. C. J. Ver-

The park was a fairyland in full splendor. Lights twinkled on all sides, stands serving drinks and eats were loaded with the best to be had and bands struck up lively strains. A Norfolk man said the park many years ago had been excavated in obtaining clay for the making of brick. Trees, scattered, some about 100 feet high, indicate the work must have been at least 40 years ago. The place is well decorated with shrubbery.

Dr. Verges, who put on the jamboree and invited down the O'Neillites, was said to have expended the sizeable sum of \$1,800 for the banserving and all, was said to have and lillies of the valley. cost \$200. Many were present from other towns. In spite of one of the most elaborate displays of food and drink towns without cost to the visitors friends. it felt for a few minutes the fun start chills and teeth were chatter- with brown accessories. ing. Four huge bon fires flared in the temperature was just right.

the way down and at Norfolk of O'Neill. people were noticed standing "at attention," watching the expedition Will Hold Rooters Day from the west glide and walk to the wholesale Verges and Norfolk banquet.

Verges park is much like achoice chunk of the Niobrara river basin edge of Norfolk. Somewhere on top of the bank at the west side in the dead of night was heard the trinkle of water but night impressions there proved deceptive. One O'Neill man said he had been told by Norfolk people he should find his train at every cardinal point and all the subdivisions. He says he walked from 10 o'clock until midnight in getting himself from the park three blocks to the train. This man must have been "turned around" and the Norfolkans doing the best they could under the circumstances.

for Nebraska. A total of \$1,104,-457 was collected for the month of August, 1935-this was on the basis of 5c per gallon. Figuring on a basis of 4c per gallon, the tax collected for August 1935 was

In August, 1934, the amount of gas tax at 4 cents per gallon collected by the department of agriculture and inspection was \$795,-390. Thus a gain of \$88,079 for down the backs of the fans. August 1935, over August 1934.

Since June 1935, there has been a gradual increase in collection of gas tax. The department has every reason to believe from the above figures that there will be at least an additional one and onequarter million dollars gas tax collected for the year, beginning June 1, 1935-this is figuring on the 4c basis only.

It is also interesting to note that in 1935 there was a total of 408,-297 automobiles and trucks registered in Nebraska. In 1934 there was a total of 430,154 automobiles and trucks registered in Nebraska.

Thus there are 21,857 fewer automobiles and trucks registered in out; Manager Cochrane of the Nebraska in 1935 than there were Tigers then connected for a single, at the home of Mrs. Will Wolfe on within the 10-day limit, and he will in 1934.
