

CHINESE, JAPANESE HERE
America's numerous Chinatowns, Chinese laundries and chop suey restaurants create the impression that the Chinese far outnumber the Japanese in this country today. The fact is, however, that there are 130,000 Japanese and only 75,000 Chinese. And although their women are seldom seen on the streets, there are 25 Chinese women and 70 Japanese women for every 100 men of their respective races.—Coller's Weekly.

DOCTORS KNOW
Mothers read this:

THREE STEPS TO RELIEVING CONSTIPATION

I. A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use liquid laxatives.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses. Reduced dosage is the secret of any real relief from constipation.

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara—both natural laxatives that can form no habit, even in children. So, try Syrup Pepsin. You just take regulated doses till Nature restores regularity.

SEEN and HEARD
around the NATIONAL CAPITAL
By Carter Field
FAMOUS WASHINGTON CORRESPONDENT

Washington.—Practical Jim Farley will have more to do with President Roosevelt's re-election—if he is re-elected—than all the New Deal brain trusters put together, or than many of the issues which in the last few months have attracted so much attention.

Farley has really built up a national organization. It ramifies down not only to every county, but to every precinct in the 48 states, and it is busy all the time. It has been working like mad in directions that have attracted no attention whatever. For example, it has been conducting a drive lately to get every Democrat, man or woman, who happens to be on the federal pay roll in Washington but charged to New York state, to register. It has run special excursion trains to New York with reduced fares, meal prices, etc., to bring about this registration.

This is a sample of the kind of activity which makes organization or machines (the choice of words depending on whether you are for them or against them) strong. It is the kind of thing that explains, in large part, why Tammany normally elects mayors in New York despite the black eye the Tiger has in most of the country.

It is the reason the Republican organization generally won in Philadelphia, the Democratic in Baltimore, etc.

Much better illustrations are Chicago and St. Louis. The point here being that these two big Middle Western towns have had periods during the last twenty years when the strong organization was with one party, and then the other party developed a better. Thus proving that it is not the normal political inclination of the voters in these big cities which is so important, but the fact that the machine gets the vote registered, and then gets it voted on election day. Not to mention seeing that it is counted—at least once—after the polls are closed.

Started in Early
Farley began his real activities following the election of Roosevelt as governor of New York in 1930. His Tammany background was shocked at the state of the party above the Bronx. There were whole counties where the local Democratic organization was a mere adjunct to the local G. O. P. boss, and received patronage scraps from the local G. O. P. table in reward.

Farley installed a real fighting organization, with workers in every upstate precinct. That explained Roosevelt's enormous majority in 1930, which made him the logical Presidential nominee. With the opening of the 1932 campaign, Farley started the same sort of organization work for the whole country. He has been at it ever since. The 1934 election, far more sweeping than even the Roosevelt landslide of 1932, was not generally recognized as the fruit of this organization work, but actually it was most potent in bringing it about.

Today the organization that Farley has built up is stronger than in 1934. Whereas the Republican national organization, and the local organization in many doubtful states, is infinitely weaker than at any time since the end of the Civil war.

This is the very little discussed handicap that the Republican nominee to oppose Roosevelt next year will face. For instance, Illinois is admitted by many observers to be apt to go Democratic. Why? Because of the strength of the Kelley machine in Chicago, plus the Farley inspired organization downstate. Were the old Thompson machine in existence in the Windy City, the state would be figured probably Republican.

In Missouri the Pendergast machine in Kansas City, plus the decay of the old "Big Four" Republican machine in St. Louis, makes all the difference. It votes in the ballot box, not sentiment 'round the radio, that elects. And machines know how to get them in the boxes.

Back to Prohibition
Most people may laugh at the predictions of dry leaders that this country is headed back toward prohibition—but not the distillers. Behind this attitude of fear is a very curious situation, very obvious to anyone inquiring into it, but not generally realized. It involves the possibility that in the next fight to get prohibition, for the fight is not only coming but has begun, the effort will be to prohibit not only beverage in excess of one-half of 1 per cent, as the Volstead law read, nor even of "intoxicating beverages" as the Eighteenth amendment read—but distilled liquor.

Distillers are keenly aware of that. This explains their caution, as contrasted with the attitude of the brewers and wine makers. There was a great deal of talk, just before prohibition, about "light wines and beer."

All of which is curious, in view of the tremendous prejudice which existed in that long period leading

The Bonus at Last?
A Little on Account
Teagle Will Sell Oil
The Oceans Are Closer

Washington reports "payment of the \$3,000,000,000 soldiers' bonus before the end of the next session is virtually assured." Good news for soldiers.

Arthur Brisbane

Do you suppose the government will print more of its "inflation bonds," and insist on paying interest on its own money instead of printing new money for the bonus, or do you believe there must be some limits to stupidity?

The League of Nations wants us to "clarify our position." It would be made clear if the President would write to the League of Nations: "Our position is this: We are attending to our business, and advise you to do the same. Also, what about a little cash on account of \$10,000,000,000 you owe us on the last war?"

Walter Teagle, head of the Standard Oil of New Jersey, disposes sensibly of the suggestion that all Americans should refuse to sell oil to Italy. He says Standard Oil is not in the League of Nations and he will continue selling oil through his Italian subsidiary.

This is news, important especially to California, where real estate property grows with improved transcontinental trips.

The Santa Fe railroad, with a diesel engine, hauling nine steel cars and using 3,600 horsepower, has cut 15 hours from the running time between Los Angeles and Chicago.

Queer things happen in Ethiopia. The Daily Express says former War Minister Fitowary Berru, in disgrace with the emperor because he spent too much money, walked, as a penitent, into the presence of the emperor, carrying on his back a heavy grindstone, and kneeled down in sign of submission. The emperor rolled the stone off his back, meaning forgiveness, and Fitowary Berru is off spending money again. Some of our baked potato and "little pig" ministers might try that.

You may see a new kind of "Olympic game" with long-distance runners wearing gas masks. In future wars soldiers will wear masks and civilians will wear them. Ability to run in gas masks will be important.

Russia knows that, and "training for the next war" eight men and women of the Ososvakhim (society for aviation and chemical defense) marched 31 miles in gas masks in 10 hours 47 minutes, a world record.

General Smuts, minister of justice in England's Union of South Africa, says: "Annexation of Ethiopia or its domination by a great European power will mean training one of the biggest, most dangerous black armies the world has ever seen."

General Smuts worries about the conquering power of such a gigantic "black army" unnecessarily.

One pale chemist inventing a better poison gas, or more destructive explosives, and a few first-class pilots could take care of any "black army" that Ethiopia might send forth.

The American Federation of Labor asks American athletes not to attend the 1936 Olympic games, if they are held in Germany. As a reason for "banning German Olympics," the federation says Hitler is crushing labor unions "with blood and fire."

There is a better reason for not holding the 1936 Olympics in Germany.

The chief value of sport is in the fact that manly exercise is supposed, primarily, to develop and inspire courage.

The spectacle of 60,000,000 Germans cruelly persecuting and suppressing 600,000 German Jews is not exactly a picture of courage.

President Roosevelt has said that he intends to keep out of European complications. He will not let Europe complicate our foreign business, making it impossible for American concerns to operate merely to oblige European competitors. In any case our European friends should at least start paying the ten thousand million dollars they borrowed before asking the United States to lose more money for their sweet sake.

Find Out
From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

PIMIENTO AND PIMENTO
Pimiento (pronounced pim-yen-toe, accent on next to last syllable) is a Spanish sweet pepper that is used chiefly for stuffing olives, seasoning cheeses and in making salads. It is popularly, but erroneously, spelled "pimento." But pimento (pronounced as spelled, with next to last syllable accented) is allspice, the dried aromatic berries of a West Indian tree. The volatile oil of the pimento is used in cookery, in medical preparations and in perfumes.
