EXPENSE OF MOVING HIGHWAYS

Why does Governor Roy Cochran and his administration keep moving the highway a few miles over from where it is?

Why do they move it over and buy the right-of-way when they now have Section line to travel on?

They are now surveying for a new highway along the railroad track from O'Neill to Ewing in order to save just a few miles.

They will run the new survey for the highway thru some expensive farms, and ruin some good farms, with big damages.

What does Governor Roy Cochran care if he spends our 5 cent gas tax to buy a new right of way, and build expensive bridges.

If the new highway is built where they are now surveying, it will require the buying of the right-of-way, and paying the damages to farmers. Damages to the farmers will be great, thru the farms it is to run.

Automobile owners now pay about 5 cents per gallon for gas tax, and that tax money and other tax money is being spent to buy new highways, when the state already owns section lines to travel on.

Election of some other governor at the next election might lessen some of this expensive road changing and big bridge building.

Between O'Neill and Inman, is low wet land and will take expensive bridges. It may take \$80,000 or something like that to build bridges and water ways and expensive high grades from O'Neill to Ewing over low wet meadows.

All this expense comes out of Mr. Tax Payer.

Mr. Tax Payer is also a voter. Governor Cochran is a road builder and brags about it in his speeches, but he does not tell the voters how much the roads cost them.

He does not tell the farmers that he is building them a farm to market road with the 5 cents gas tax they pay.

He does not tell the tax payer that he moves the highway from where it is now on Free Section Lines, and moves it a few miles one way or another and buys expensive right-of-way for the new roads.

The present highway from O'Neill to Ewing runs on section lines mostly and the section lines are free.

Section lines are for road purposes. Automobile owners will be paying 5 cents per gallon gas tax or thereabouts all their lives if such expenditures are continued.

Why doesn't Governor Roy Cochran build some farm to market roads?

What the country needs is a road in the country that will accommodate 15 or 20 farmers to town!

A farm to market road that will let 15 or 20 farmers use it in going to town.

Those farmers are paying gasoline tax.

—A Taxpayer.

SOUTH SIDE IMPROVEMENT CLUB

The South Side Improvement Club met at the home of Mrs. Emma Maring on Oct. 8. All members were present except two. Mrs. John Lowery was a visitor. The lesson, "The Important Job of Homemaking," was given by Mrs. John Welsh and Blondina Welsh. The next meeting will be held at the home of Mrs. Dewey Shaffer, Nov. 12. A delicious lunch of sandwiches, cake and coffee was served by the leaders.

Notice To Taxpayers

DO NOT BE FOOLED by New Dealers who say you will not have to pay your share of the extravagance and waste of the New Deal State and National administrations. The average citizen always pays the bill, not only in direct taxes but in taxes upon everything his family eats and wears. Only a SMALL part of this staggering tax bill can be paid by the rich, and they will pass it on to the consumer. In the end, IT MUST COME OUT OF YOUR POCKET!

Four years ago, before he went on this wild spree of political spending, Franklin D. Roosevelt said: "Taxes are paid in the sweat of every man who labors. Our workers may never see a tax bill, but they pay in deductions from wages, in increased cost of what they buy."

That is true today, but President Roosevelt seems to have forgotten it.

NOW is the time to stop this waste of your money—before it is too late. Vote to take the politicians off of the taxpayers' back—there is ONLY ONE way to do it—

Vote Republican
