

Over the County

SOUTHWEST BREEZES

By Romaine Saunders

A son was born Monday of last week to Mr. and Mrs. D. L. Withers.

H. L. James attended the Hereford sale over at the Graver ranch on Monday.

Cheap power for the farm is worrying the politicians a lot more than it is the farmer.

Why the farce of civil service examinations when the job goes to the partisan favorite anyway?

Every demagogue from the close of the civil war to the present has eluded himself as an Abe Lincoln republican.

The new Dodge truck of D. L. Withers overturned in a ditch on a trip to Sioux City a day last week with disastrous results to the truck.

Mr. and Mrs. Ernest White went to Chambers Sunday to attend the funeral of Mrs. William Cooper. They were neighbors in Illinois before coming to Nebraska.

Mr. and Mrs. L. M. Rohrer, of Hastings, and Mr. and Mrs. Glenn Saunders and little son, of O'Neill, visited Sunday at the parental home, that of Mr. and Mrs. R. Saunders.

Jack Frost has given us two mornings seven points above zero. Four or five inches of snow spread the landscape with a dreary reminder of last winter's blockades, but within a day or two autumn's brown was fully restored.

Mrs. Plank, in charge of the school in district 243, found it necessary to dismiss school for a few days last week while she went to Omaha to have her eyes fitted with glasses. The time will be made up holding school on Saturdays.

The state house could do nothing for us to close the pheasant season, but hunters are exercising care to avoid setting fires. The snow was some help. There are not many of the birds, rabbits continue plentiful with an occasional dun-grey prairie wolf cautiously showing himself.

Some from this community were at Atkinson Saturday night and attended the meeting at Memorial Hall when Dr. Douglas and Mr. Manlove, a former Missouri congressman, spoke to a large crowd that felt now they had no possible excuse to vote otherwise than republican. This was offset by Uncle George telling 'em down at O'Neill.

A personal friend in a distant section of the county—that is distant from the southwest—related some time ago the story of a remarkable situation in his community. A large interest in religious services and scripture study had been developed by the individual efforts of a few until a company of worshippers, which would be a godly number for a large town, assembled weekly in a vacant building. The community has one citizen who seems to partake of the hatred of religion now blighting the moral perceptions of humanity in large sections of Europe. He padlocked the building. This without right, title or authority. He would deprive little ones, whom the Savior invited to "come unto Me and forbid them not," of a wholesome instruction; close the door of worship to youth and age and abandon the community to a Godless existence. The elements of ethical decay are working not alone in far distant lands but right here at home. Padlock the churches of America, stumbling and inefficient as they are, and Heaven pity us.

Not in the immortal words of Patrick Henry but as Shakespeare puts it into the funeral oration of Mark Anthony, "the evil that men do lives after them, the good is often interred with their bones." So would our friends of the New Deal have it with the much maligned Mr. Hoover. Over zealous partisans have forgotten Mr. Hoover's work of mercy which alone in Holt county amounted to over \$200,000 during the last year of his unhappy administration. Have forgotten the cans of food and clothing sent into the county and distributed to the needy, many rendered so through no fault of their own. Have forgotten the cars of stock feed, of flour in generous 100 lb. bags wisely distributed through existing local agencies; this in contrast to the present marvelous method of 75 per cent out of the relief funds going to a high salaried group of administrative heads for doing little or nothing with 25 per cent getting into the hands of the poor bloke with a shovel and the struggling widow. The federal government, Mr. Hoover then president, local communities; heartless, soulless, greedy, grasping railroads of America—these all cooperating did just as good a job of relief work as ever has been done and no debt that would take a half century to make a dent in involved in doing so. "The poor ye have always with you" said He who had not where to lay His head. They survive the ages. It has been left to the New Deal to make a pawn of human need—to send to the length and breadth of free America a coterie of federal salaried appointees on the embazoned pretext that "no body shall go hungry." Sad enough there are hungry ones. Personal contributions to many for a two-bit meal within recent months testifies to that.

YOU MUST CHOOSE!

The American people will not merely elect a President on November 3rd—they will choose a form of government. For that reason, we ask you to consider carefully the facts before you vote.

Several prominent economists have said recently that this may be our last election . . . that Fascism is coming to the United States. They point out the similarity in national affairs here now, and in European nations before popular government was overthrown there.

Our national budget is unbalanced . . . national debt near the danger point and growing daily . . . political carpet-baggers wasting the taxpayers' money . . . millions still unemployed. Only our Supreme Court standing as a bulwark against regimentation of farmers, laborers and business men.

The Republican campaign is a crusade to save the American form of government for the protection of your home and family life . . . for the free opportunity to work and live as your fathers did.

Freedom and tolerance in all walks of life has long been the prime concern of government . . . if you wish to keep America free from regimentation and dictatorship . . . if you want to continue to follow the dictates of your conscience and to practice your rights as granted you in the Constitution of the United States, cast your vote for those who will safeguard your liberties.

VOTE REPUBLICAN

DONT BE FOOLED by eleventh hour rumors, or efforts to stir up racial prejudice by injecting issues that belong to the past. There is just one issue now—the form of government under which we choose to live.

VOTE FOR

JOHN A. CARSON
for Supervisor
of the 2nd District

I have lived in Holt county for 47 years. I am a land owner, and I pay a big tax. I have always been for the up-building of the county and good roads, and have always tried to work for the interests of the people in my district. I am not asking the voters in my district to vote for me on my uncle's record, or my father or my grandfather. I am asking them to support me on my own record as a citizen and a county officer. Their support will be highly appreciated.
