* TRIPLE-TREATED ISO-VIS "D" MAKES IT EASY...AND SAFE TO START COLD ENGINES FAST

A MOTOR OIL that makes it easy to start a cold engine fast doesn't necessarily make it safe to start fast—but here's one that does both. You'll be wise to put "triple-treated" Iso-Vis "D" in your engine right now. Have the Standard Dealer drain the summer-grade oil from your crankcase, flush it clean and refill with Iso-Vis "D", 10-W or 20-W. It's only an 8-minute job at most.
