 (Continued on page 7, column 4.)

SEED CORN

FEATURING
Dakota White Dent

This seed was bought from the Guernsey Seed House two years ago and made 36 bushels to the acre, field average, last year in Holt county. It took first at a local seed show this spring. This corn is being sold as high as \$5.00 per bushel. Our price is **\$2.50**.

We reserve the right to limit our sales to farmers only. Truckers or others wanting it for resale are requested not to buy.

We also have different varieties of Yellow and some Rainbow Flint. This seed is all home grown, shelled, graded, tested and ready to plant. A man at the office all the time to fill your orders.

Dr. H. L. BENNETT

More Mileage to you— BREAD & BUTTER TO ME

My station is all on its own. My living's got to come mostly from you people here. I want your steady trade, and there's where it helps me a lot, I can tell you, to be selling Conoco Germ Processed oil—the only oil that can Oil-Plate your engine. Meaning that a definite part of this patented oil always fastens direct to every working part . . . forms a real Plating of oil, which can't run down. Other oils "dry off" every time you park, but Oil-Plating can't, so you'll never make hard, grinding starts. And that ends the worst wear of all. Or when you're hitting it up, this real Oil-Plating isn't rubbing right off, or thinning out, or burning right up. Which gives you mighty solid reasons why Oil-Plating means more mileage from your engine and your Conoco Germ Processed oil. Besides making customers, I get a kick out of changing you to an oil I can believe in myself, right to the limit.
