New "Dead" Ball Gets Once Over

National league pitchers may look upon the new "dead" ball as a boon that will prevent batting speers by opposing teams. These three pitchers of the New York Giants, Hal Schumacher, left, Cliff Melton, center, and Carl Hubbell, are shown looking at the new ball at their spring training camp at Hot Springs, Ark. The new "dead" ball was selected for the 1938 season in the National league at a meeting of club presidents several months ago. At that time the American league decided to retain the so-called lively ball. The dead ball is expected to reduce the advantage which hitters have enjoyed for several years over pitchers and result in a return of base-stealing and "tight" baseball.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!
