Old Mexico As Seen By Holt County Trave

By Mrs. Maxine Meech In natural resources there country in the world richer Mexico. She has everything w her own borders. Many of treasures have not even been tapped, for during the generations of oppression, exploitation and bloodshed the development of the country as a whole was woofully neglected. With an era of peace and a vigorous government much progress can be expected of Mexico in the next generation or two. The government's first step in this direction is the building of reads. As yet there are few high ways, but construction is being pushed rapidly and in a few years all parts of the federation should be accessible by automobile. What ever the Mexicans accomplish i that line in the future, however, they shall never top the work they have done in creating the Pan American highway.
