FACTS ABOUT FUNDS
In the past five years the federal government has paid out exactly \$14,218,773,000 in emergency relief funds.
How much is that? More than \$110 for every man, woman and child in America, enough dollars to six times bridge the distance from earth to moon, enough \$1 bills for 57 earth-girdling dollar chains.
Where has it gone? It takes a quarter of a billion dollars to circle the earth. Twelve belts for the earth's middle went for direct relief, nineteen more for work relief. Fifteen world girdles for dollars went for PWA projects, seven more for CCC camps, and four for odds and ends.
Where did it come from? Out of your pocket, Mr. and Mrs. Taxpayer, and out of the pockets of your children. And out of those pockets must come the millions of dollars in local and state relief as well.
What can we do about it? Take more interest in our local, state and national government. Watch the nation's dollars as we do our own pennies. And remember the dollars, 14,218,773,000, now, that are gone.
