**Cholera Time**

Right now, with plenty of new grain to feed, your hens may start dropping off the roosts. Cholera is usually caused by feeding grain alone and not enough protein. Protein must be fed every day!

Here's an easy way—and cheap—to feed proteins and minerals your hens need:

For 100 hens, mix 5-lbs of Shamrock Concentrate with enough milk or water to make it crumbly. Feed each morning.

Come in and we'll figure out a formula for you that will fit your conditions.

**DEAR FRIENDS OF HOLT COUNTY:**

Sometime ago I announced myself as a candidate for the Republican nomination for sheriff of Holt county. I have not made an extensive campaign, because I have been too busy making a living. You have been busy too, and I have hesitated to waste your time by making you listen to a candidate's promises. I am now taking this opportunity of presenting myself to you as a candidate. I could make promises, but promises are vain things unless they are fulfilled. I am only asking for an opportunity to make a good record as Sheriff of Holt county. I leave it up to you to give me this opportunity. If you can see your way clear to conscientiously support me in the coming primary, I will be thankful. If not I thank you for your courtesy in reading this notice.

Nothing but Conoco Germ Processed oil gives your engine Oil-Plating. Patent Germ Processing doesn't quit when it has taken out the stuff that gets gummy and watery. After that, Germ Processing also ADDS IN the patented discovery that gives your engine the only Oil-Plating. Just think of Oil-Plating really joining up to the working parts as firm as any other plating on your car. So how can this inbuilt Oil-Plating go draining down at every stop? It can't. There's always oil to start with, and none of that terrible starting wear in your Oil-Plated engine. ● Your license is a valuable and protected permit to engage in a legitimate business.

You have more than average protection—the number of your competitors is limited by governing authorities.

ALSO—Your license is more than personal privilege and personal property.

Your license makes you a definite part of the great Nebraska Brewing Industry—an industry which pays millions each year in taxes, millions in payrolls, uses a vast amount of farm products; an industry in which millions of dollars are invested.

Your license makes you ONE OF THE MANY responsible for maintaining the high standards of the industry—responsible for strict adherence to law and for orderly conduct of the beer business.

The Nebraska Brewers and Beer Distributors Committee is organized to protect the industry from abuses that sometimes attach themselves to the beer business. You, the retailer, do not want abuses or law violations. The small per cent of your number who may disregard law and common decency, jeopardize too many jobs, too much invested money, too much tax revenue. These few are as undesirable to the retailer as they are to the manufacturers and distributors of beer.

Urge your customers never to patronize a beer store or tavern, which by its conduct jeopardizes your license and privilege to do business.
