O'NEILL HIGH SCHOOL
Opening Announcement

O'Neill High School Offers The Courses You Wish To Take!

Commercial

Many students do not wish to go to college, but expect to begin their life work immediately after graduation from high school. Such students expect their high school course to give them the largest possible grasp of those fundamentals of business that they plan to use in the particular field they have chosen. The O'Neill High School will make every effort to provide such training in its Commercial Department.

Normal Training

This course meets fully the requirements of the State Department of Public Instruction for preparation of rural teachers, and should be selected by high school students who expect to make teaching a career. If electives are carefully chosen, this course meets college entrance requirements.

College Preparatory

Students who are looking forward to a college career will find the preparation they need in the sound academic training offered in this course.

Home Economics

The usual course in home economics will provide an opportunity for girls to study cooking, sewing, and home making.

Athletics

A sound body is as desirable as a sound mind, and every opportunity will be given for the development of both. Football, basketball and track will be scheduled.

Music

The courses in band and glee club will be arranged so as to offer a greater opportunity than ever before for students interested in music. Mr. Ira George, the new member of the faculty in this department, is known throughout the state as a very superior instructor in band music. Under his instruction O'Neill High School may look forward to the development of the best band in the history of the school.

Dramatics

Miss Jean Gist, the new instructor in the English Department, is well prepared to coach class plays and develop students for dramatics contest work. She has studied dramatics both at the University of Nebraska and at Northwestern, and is fully as well prepared in dramatics as she is in her major field of English. O'Neill High School students will have opportunity to take full advantage of her talent and training.

Fully Accredited

The O'Neill High School is fully accredited by the University of Nebraska and the State Department of Public Instruction, and is a member of the North Central Association of Colleges and Secondary Schools. This means that the credits of graduates will be accepted at face value in universities and colleges anywhere in the United States.

Registration

All pupils who expect to enter high school are asked to register at the High School building on Friday and Saturday, September 2 and 3. Regular class work will begin Monday, September 5, at 8:45 A. M.
