DAREN'T START DRY

EVEN if this camel holds records for going without more drink, could he last if he had to start dry? Your car and your engine oil can't last either if you keep starting dry this Summer. You can't help it with any oil that always drains down to the crankcase completely. But you can certainly help it by getting your engine OIL-PLATED. NEVER all down in the crankcase, no matter how long you park, OIL-PLATING is lastingly close-knit to inner engine surfaces by the action of Conoco Germ Processed oil—patented. Its strong "power of attraction" fastens non-detachable OIL-PLATING throughout your engine. Does chrome-plating drain down? Neither does OIL-PLATING. Therefore in advance of starting, it's ready to slide every working part into easy motion, without rasping dryness. And since OIL-PLATING doesn't fly off or fry up it helps your engine to shatter the record for going without more oil. That's why to OIL-PLATE today with Conoco Germ Processed oil, at Your Mileage Merchant's. Continental Oil Co.
