When a local O'Neill girl tells a boy she dreamed about him the night before, he had better start looking at furniture ads the night after.

INMAN NEWS

Miss Gladys Hancock is quite ill with the flu at her home here. Inman and vicinity received a good soaking Monday afternoon when two inches of rain fell. There was also considerable hail and wind. The large, almost new barn on the John Sobotka, Sr., farm was unroofed and damaged terribly. The wind mill was blown over and draped around the well house beneath it. Other buildings were overturned, a number of pigs were drowned and many of their neighbors sustained heavy losses among their chickens and turkeys.

Have Some Old Churches

Some of the historic churches of the Old World are: St. Paul's cathedral, London; Westminster abbey, Westminster, London; St. Mary's at Oxford, England; Canterbury cathedral, Kent, England; Melrose abbey, Scotland; Church of St. Mark, Venice; St. Patrick's cathedral, Dublin; Cathedral of Notre Dame, Paris; St. Peter's, Rome; Higashi Hongwanji temple, Kyoto, Japan.

And in the United States the following are world famous:

St. John's Protestant Episcopal church, Washington, D. C.; historic old Trinity, on the edge of Wall street, New York city; Trinity church, Newport, R. I.; Roger Williams' church, oldest Baptist church in America, Providence, R. I.; Christ church, Philadelphia; Old South church, Boston; Trinity church, Boston; St. Paul's chapel, Columbia university; Temple Beth-El, New York; the old St. Louis cathedral, New Orleans; Mormon temple, Salt Lake City, Utah; Santa Clara mission, Santa Clara, Calif.; San Diego mission, California; and San Juan Capistrano, California.

The Chesapeake Bay Retriever

There are several interesting characteristics of the Chesapeake Bay retriever. The most prominent is the dead grass color of these dogs. This may vary from a dry straw color to a dull brown. Very noticeable is the eye color of these dogs, which is a marked, light amber. In most breeds it would be considered too light, yet it is a standard color of this breed. Strangely enough, all the puppies have brilliant blue eyes until they are six weeks old or older. There's no record of any other breed in which this transition of eye color takes place. The quality of the Chesapeake's coat would seem to indicate some admixture of poodle blood. It is very dense and water resistant with a very frequent tendency to curliness, which is considered a fault in the Chesapeake standard. However, this curliness crops out with extreme frequency in the best litters.

Story of the 'Female Stranger'

The National Geographic Magazine says: "One autumn day, more than a century ago, there arrived at a hotel in Alexandria, a gentleman accompanied by a lady who was ill. The tactful man gave no information except to a doctor and a nurse, who, sworn to secrecy, never divulged it. At the lady's death, her companion purchased a lot in St. Paul's cemetery and paid for this tomb with drafts on England. In part, the inscription reads: 'Female stranger, whose mortal suffering terminated on the fourteenth day of October, 1816, aged 23 years 8 months. Stone placed by her disconsolate husband, in whose arms she sighed her latest breath, and who, under God, did his utmost to soothe the cold dead ear of death.'"

Singing Summer Sewers

The Singing Summer Sewers 4-H Club met at the Arthur Alm home Wednesday, July 26. The meeting was called to order by the president and the secretary read the minutes of the last meeting. Two members withdrew from the club and two members were absent. The first year members worked on work baskets and made pin cushions. The second year members fitted patterns. At the close of the meeting orangeade and cookies were served. Doris Hansen, Reporter.

Bottoms Up!

A BARREL ROLL! . . . Hard on the dare-devil air devil . . . Safe for his engine because it's well-oiled upside down. Just think: Your car would get better engine lubrication if you could always park upside down! You can see that by standing "bottoms up" your engine would stay oiled to the top! Then it couldn't start dry—oil-starved. And that worst source of engine wear would be ended.

Get this benefit without any "topsy-turvy" . . . Get your engine OIL-PLATED. That takes patented Conoco Germ Processed oil. Its "magnetic" power mates it to the working parts as intimately as chromium-plating is mated to the bumpers. Chromium-plating can't drain down; OIL-PLATING can't either. All the way up in your engine—all the while it stands or runs—all the time you use Germ Processed oil—you've got durable OIL-PLATING.

Then every start is well-oiled—wear-proofed—by lasting OIL-PLATING. And you're not adding oil every other time you stop, once you change to the only Germ Processed oil . . . at Your Conoco Mileage Merchant's. Today.
