

France Demonstrates Undersea Fighting Technique

Accent is on undersea fighting in the present European conflict, and France, with some of the world's finest submarines, is prepared for whatever may come. Here is a graphic idea of the fighting technique of an undersea warship. Upper left: Brains of the submarine is the man at the periscope. He navigates her into firing position. Upper right: Here's what the navigator sees. The periscope's crossed lines spot the target, the "ladder" gives him the range. Lower left: The torpedo crew slides one of the deadly "fish" into its tube. Lower right: The torpedo is in place and all is set for the order to "fire!"

War in Europe Influences American Christmas Toys

The influence of war was distinctly noticeable in the preview of American Christmas toys held in New York recently. In addition to guns, tanks and planes, there were toy ambulances and other first aid equipment. A little war nurse in toy uniform inspects her battlefield casualty—a doll. A young soldier has time of his life with front line equipment.

Igloo Dwellers Go Modern—in New York

The Mayokoks, only full-blooded Eskimo family in the United States, were saved from a dangerous 7,000-mile journey to blizzard-swept Cape Prince of Wales, Alaska, when the husband found a new job. During the closed season Mayokok will serve as caretaker of the World's fair carrier igloo in New York.

Just in Case—

The United States coast guard at Miami, Fla., takes no chances. When foreign submarines were reported to have been sighted in Florida waters, coast guard officials painted a large American flag on the underside of the wing for identification purposes.

'Fixed' Fighter

Harry Thomas, Eagle Bend, Minn., heavyweight fighter, started a boxing war recently when he announced his fights with Max Schmeling and Tony Galento were "fixed." Investigation was opened when Thomas declared he was paid "big money" to lose the fights.

As Captive Poles Labor in German Prison Camps

Polish soldiers who became prisoners of war when the Nazi blitzkrieg subdued their country are shown at work in a prison camp "somewhere in Germany." Many of them are at work constructing buildings to house prisoners, others labor with pick and shovel, thus releasing more manpower for German military duty.

Ashes of Japanese Soldiers Home for Last Rites

Japanese priests are shown receiving the remains of hundreds of soldiers who died fighting in China or on the Mongolian border. It is a familiar sight at railway stations throughout Japan as the ashes of the country's soldiers come home in small white boxes. To the surprise of many, army officials announced that 18,000 Japanese casualties had resulted in the few weeks of fighting with Soviet troops along the Manchukuo-Outer Mongolia border before a truce was declared.

British Tar Comforts U-Boat Victims Brawlers, Keep Out!

A British tar comforts two pickaninnies who were rescued from the French vessel Bretagne, sunk by an enemy submarine. The Negro children, with other passengers, were taken to an undisclosed English port.

Determined to preserve her neutrality, Sweden keeps a constant vigil on her territorial waters. Here is a 25 mm. anti-aircraft gun mounted on a Swedish submarine cruising in coastal waters. And the gunners are ready for action.

California Fliers Set Endurance Mark

Up in the air about the whole thing were Wes Carroll, left, and Clyde Schlieper, fliers who established a new world's endurance record in California. The lads remained in the air for 726 hours (30 days and six hours) in their pontoon-equipped light plane. The previous record was 653 hours and 33 minutes.

All for Safety

No—the picture isn't upside-down. This pilot is merely testing a new airplane safety belt at Wright field, Dayton, Ohio. The belt is protection against crash landings.

Battlefront Headgear Stresses Safety

With camouflaging weeds fastened on their steel helmets to fool enemy airmen, three Tommies of the East Surrey British regiment pause to light their cigarettes. Natural and artificial camouflages have been developed to a high degree by both sides of the present conflict.

Isn't This Why You Are Constipated?

What do you eat for breakfast? Coffee, toast, maybe some eggs? What do you eat for lunch and dinner? White bread, meat, potatoes? It's little wonder you're constipated. You probably don't eat enough "bulk." And "bulk" doesn't mean the amount you eat. It's a kind of food that forms a soft "bulky" mass in the intestines and helps a movement. If this is your trouble, may we suggest a crunchy toasted cereal—Kellogg's All-Bran—for breakfast. All-Bran is a natural food, not a medicine—but it's particularly rich in "bulk." Being so, it can help you not only to get regular but to keep regular. You won't have to endure constipation, you can avoid it. Eat All-Bran daily, drink plenty of water, and life will be brighter for you! Made by Kellogg's in Battle Creek.
