## Judging Program Planned For 4-H Clubs Next Week

4-H judging day which is being planned for Atkinson on Friday, June 28, promises to attract approximately 400 boys and girls from Holt, Rock and Boyd counties. Judging day is a school rather than a contest is conducted by specialists from the Nebraska college of agriculture in cooperation with the local county agent, Lyndle R. Stout. It will offer the group of 4-H boys and girls attending a first class opportunity to improve themselves in judging the various projects in which they are interested.

The group will meet at the Atkinson High School promptly at 10:00 A. M. The day will be spent by the girls under the direction of home economics leaders and those members interested in improving their knowledge of livestock will be taken to nearby farms to work with different classes of livestock. Each member will furnish his own lunch but many clubs are expected to plan picnic dinners in the Atkinson Park.

Judging day is considered probably the most instructive activity on the 4-H program during the year and all members and leaders are encouraged to attend.

## Northeast Holt Pioneer Remembers Rev. Blain, One of the First Ministers in the County

In reading the Norfolk Daily News of May 25, I note that Page held a celebration in honor of Rev. Bartley Blain, who was the first Methodist minister of Holt county. I would like to say that Rev. Blain also organized a church at Pleasant Valley school house, near what is now known as Meek in the year 1881, and made the trip on foot from Middle Branch to preach at the school house, often coming on Saturday night and staying over night at the home of my parents, Mr. and Mrs. A. F. Rouse. Later on he procured a horse and came on horseback.

In the year of 1894 Marquette Chapel was built and dedicated and Rev. Blain was one of the leading pastors to attend that dedication. Rev. Blain was in the ministry 62 years and saw all the hardships of a pioneer country.

The writer has many pleasant memories of Rev. Blain, as have many others, who were living at that time in the locality.

—Mrs. F. H. Griffith.

## City Officials Make New Contract With Interstate Power Company

The City Council met in special session last Thursday evening to take up the matter of street lighting, the present contract expiring on June 12, after five years.

A new contract was entered into for a five year period and the city made a saving on the new contract of about 21 per cent, over the sum paid the past five years, a saving of \$619.40 per year or a saving in the five year period of \$3,097.00.

The matter of the pumping of the water for the city was then taken up. The present contract the Interstate Power Company had with the city had still two and a half years to run, but the company agreed to cancel the present contract, which called for a straight 3 cents per kilowatt and would enter into a new contract with the city for a five year period at a reduced rate. The new contract provides that between the hours of 9:30 p. m. and 7:30 a. m. the city shall pay two cents per kilowatt hour and from from 7:30 a. m. to 9:30 p. m., three cents per kilowatt hour, the same as the old rate. City officials are of the opinion that the new contract will mean a saving of at least 15 per cent on the cost of pumping water for the city. Both of these new contracts mean a substantial saving to the city of O'Neill.

## European War Is Still Raging in France

The war in Europe still rages and Germany is now in possession of Paris and over half of France. France has sued for peace, but the demands made by Germany and her ally, Italy, will probably be so severe that they will reject the offer. It seems though that France is lost to the allies for the present.

England says that they will still continue to fight and believe that they will eventually be victorious in the struggle.

In this country the congress is still appropriating money for national defense, to build a larger navy and hundreds of airplanes. It came to light yesterday in Washington that the government, the leaders of which are afraid that Germany and her ally will raid the United States, has been turning over to the builders many airplanes and vessels which have been transferred to the Allies, or to England. If we are in such danger of a war, why are we turning our means of defense over to a foreign power?

## The Weather

Last Monday was the warmest day of the year, 1940, when the mercury climbed to 96 during the afternoon, but it cooled to 92 on Tuesday and this, Thursday, morning it is really chilly as a result of a thundershower in O'Neill when it rained eight hundredths of an inch. However in the north part of the county, they had a good rain, about two inches falling in the vicinity of Phoenix. May was the second driest month in the history of Nebraska, for the state as a whole, and during that month Holt County received only .03 of an inch, while so far, during the month of June 2.81 inches has been recorded by the official weather bureau. Following is the weather chart for the past week:

	High	Low	Prec.
Thursday	85	55	
Friday	93	60	
Saturday	86	57	
Sunday	91	67	
Monday	96	67	
Tuesday	92	70

## State Officials of FHA Held Meeting in O'Neill Last Monday Night

Federal Housing loans for construction of new homes, or refinancing were explained at a meeting at the K. C. Hall at O'Neill Monday night, June 17, to an audience of material dealers, contractors, bankers, real estate men and others.

Holger Holm of Omaha, State Director of the Federal Housing Administration, and Albert E. Long, Field Representative for the same organization were the speakers.

State Director Holm predicted for Nebraska the biggest Building activity since 1929, and expressed the firm belief that O'Neill would do its share of this residence construction work when the people and the material men understand fully the opportunity the FHA offers the public to borrow cheap money for long terms of years and on exceedingly low monthly payments. He pointed out that under this plan a 25-year loan may be obtained and that on a \$3500 home it is possible to borrow \$3,150, making the payments of principal, interest and mortgage insurance as low as \$18.81 a month for a \$3,100 loan. He called attention to the fact that this is vastly less than rent the owner would be obliged to pay for a similar new house if someone else owned it.

## Northeast Holt County Lady Wins Refrigerator

Mrs. Claude Pickering, of Redbird, probably feels that she is the luckiest woman on earth. On June 19 Proctor & Gamble announced over the radio, that the local Electrolux dealer, Ralph N. Leidy, would deliver to her free of charge, a six foot Servel Electrolux Refrigerator, either gas or kerosene as she preferred. Mrs. Pickering won this refrigerator by giving some very good reasons for using P. and G. soap. The contest does not close until June 30 and any person desiring to enter can do so by obtaining blanks at any grocery selling the soap or at the O'Neill Hatchery.

## Nebraska 4-H Club Week

By Patty Schaffer, O'Neill

Three hundred and fifty boys and girls and leaders of Nebraska's 4-H clubs had a very enjoyable time at the twenty-fifth annual 4-H Club Week in Lincoln.

We were treated very royally all during our stay and were taken to see Omaha and Lincoln. On our trips through Lincoln we had private buses which were for the sole purpose of carrying 4-H'ers who were at Club Week, and wherever we went we were escorted by Policemen who rode ahead on motorcycles. While in downtown Lincoln we were given our preference of visiting the stores or a museum. As we were taken through the capitol building, we were given the privilege of going through the Governor's private offices.

The group was taken through Antelope Park and in the evening the agricultural college 4-H club served us a picnic supper.

For vespers we went to the First Plymouth Congregational Church. There we sang to the accompaniment of the carillon bells.

On our trip to Omaha we had a special train all to ourselves. We were allowed to walk all over the train and practically ran it.

While in Omaha we visited the livestock industries of South Omaha. At noon we were served a very nice dinner in the large dining hall of the Omaha Exchange Building. There we made a radio broadcast and after dinner we were entertained at the Orpheum Theatre.

One day we visited the agricultural college campus. The girls were taken through the home economics buildings and then the dairy building. While in the dairy building we were standing around a large tank of milk which was soon to become cheese when a girl standing near thought there was a glass plate on the tank. She slapped her hand down—Splash—giving everyone a milk bath.

We were entertained at numerous banquets given in our honor by the Chamber of Commerce of Omaha and the agricultural college. The one given by the agricultural college was a leap year affair, but I'm afraid it didn't go over as such. The girls were too bashful or shy, I think, because the boys after waiting until the last minute finally asked the girls to go with them.

All in all I had a very nice time and am looking forward to another year of 4-H Club work.

Mrs. Frank Froelich and daughters returned Saturday from Audabon, Iowa, where they have been visiting at the home of Mrs. Froelich's parents.
