But if you want to win on your Spring change of engine oil, go clean past those old favorites, Drain and Refill.

Out with your messy Winter oil—today—before a bearing or something's half shot. Then beat old-type oil changes by changing to an OIL-PLATED engine—the modern Spring change you get with Conoco Germ Processed oil.

This patented oil includes a rare man-made extra substance that sets up a strong "power of attraction," which OIL-PLATES a sheet of lasting lubricant direct to engine parts. Close-knit OIL-PLATING can't drain completely dry... not all night at a standstill... not all day at double-quick... never while you're using Germ Processed oil. Hence no bone-dry starting, nor fine-fitting parts rubbing dry at speed.

That's how an OIL-PLATED engine gets a real chance to keep its fine fit... and to keep going extra miles per quart. Get your correct Germ Processed oil for Spring, at Your Mileage Merchant's Conoco station. Continental Oil Company

The kind of man we're looking for may be a garage owner, an implement dealer, a coal and lumber dealer or a hay and feed merchant. Perhaps he can take on Oldsmobile in addition to his regular line. Automobile experience is desirable but not necessary—simply a good business record, plus a very modest capital investment. Why not investigate this unusual opportunity today?
