few days with her daughter, Mrs. John Conard.  
Miss Leona Fern Beckwith entertained the Emmet school at a watermelon feed at her home Thursday afternoon. The occasion was Leona's thirteenth birthday. Ervin Kloppenborg had a lot of hard luck Sunday. He was coming into town horseback to attend the picnic and his horse fell with him on the highway, breaking a bone in his foot just above the ankle. Ervin has been attending school in O'Neill and was on the football team there.  
The church picnic Sunday was very well attended and apparently enjoyed by everyone present. Aside from the excellent dinner the event to draw an interested crowd was the ball by the old timers. The old timers really played ball, some of the more

quiet ones, but one or two innings but the good sportsmanship was there as it was twenty and thirty years ago. A lot of them haven't had a bat in their hands in that length of time unless it was to show their sons "This is the way I hit the ball for a home run the time I played against so-and-so." Here are a few remarks heard at the game: "Is that Bob Ford out there? Yes and he is just as good as he ever was." Guy Cole never could run, could he? Perhaps not but he always got on base." "Teddy Miller has sure slowed up a lot hasn't he?" "Wonder where Dr. McKee is? He must be getting old I guess." "Bob Ford is about the only one that has kept that school boy figure, isn't he?" "I've been watching the Froshynski boys play good baseball for thirty years. Wont they ever retire?"

Rev. Thomas Peacock left Tuesday for Lincoln where he will attend the annual conference of the Methodist Church. He expects to be gone until Tuesday of next week.  
Mr. and Mrs. Sewell Johnson and daughters attended the fair at Chambers last Friday.

your next quart

New oil lasted 5,683 miles longer than the runner-up in Death Valley Death-Test ...CERTIFIED

5 BIG-NAME OILS bought retail by Referee. One 5-quart fill per car. Not another drop throughout the hot desert Death-Test.

Your own engine gauge-stick can tell you best about Conoco Nth motor oil. Next-best is to buttonhole the most frugal car owners you know around town. Some have never yet added a quart since changing to Conoco Nth. And you can see why right here—by the mileage figures from the Certified Death-Test of Conoco Nth oil vs. five other big brands.

The whole big success of Conoco Nth started down in Death Valley—so hot you can't sweat. Here 6 new stock cars, strictly alike, each got one 5-quart fill of some one oil being tested. Then the Official Referee clamped on the locks; never a drop of oil could be added.

Eyed by impartial officials every instant, the cars all reeled off their 57 miles hourly. Here and there on the desert a carcass lay bleaching—and desert death awaited these car engines, too. For none could finish till its oil hit bottom—finishing the engine beyond repair.

**CONOCO Nth gave nearly Twice the miles averaged by the others tested!**

The 5-quart fill of Conoco Nth lasted 13,398 miles. . . Certified. Conoco Nth outlasted one big brand by 8,268 miles. Even the best of the five was outlasted 5,683 miles by Conoco Nth oil. Such a real difference must have a real source. And two real life-givers created by man . . . two modern synthetics . . . are in Conoco Nth motor oil.

You know of modern vitamin synthetics, making up for Nature's life-givers lost in some modern food processing. Similarly,

the extreme refining needed by oils for current cars has been destroying Nature's best life-givers! But in their place today Conoco Nth brings your engine the two patented Conoco synthetics.

One of these—man-made under the famed Germ Processed oil patent—will keep your engine OIL-PLATED with lubricant that can't all quickly drain off of inner surfaces. So OIL-PLATING is on guard against wear in advance! And the latest Conoco synthetic—man-made under U.S. Pat. 2,218,132—will check "festering" of oil that's encouraged by foul leftovers from every engine's normal firing. This common oil trouble is now checked or inhibited by the new man-made Conoco life-giver—Thialkene inhibitor.

You'll never Death-Test your Conoco Nth oil in sinister Death Valley, any more than you repeat other proving-ground tortures. You'll still drain and refill at recommended intervals. But how you'll expect to stretch the distance before adding a quart, judging by this big fact: 5 heavily advertised oils in the Certified Death Valley Test were outmiled 74% to 161% by Conoco Nth oil. Economy like that counts up into dollars! Change to Nth oil today at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

**CERTIFIED** I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.
