Mr. and Mrs. Saunders were favored with an over night visit of Oakdale a day last week.

In a letter from John Brennan he mentioned conditions in Utah, saying there are 13,000 unemployed in that state where \$130,000,000 bas been put into war industries. This has made employment for 18,000 workers. John regrets to hear of the passing of so many of our old settlers.

Maybe it should rest in the grave of forgotten records and maybe it is alright to know something of our Nation semi-heroes. Here is one of over a hundred oder to get the account settled, so years ago down in old Texas: "This is to certify that the foreig-slate. ner Samuel Pablo Houston is a man of good moral character and industrious, loving the constitution and laws of the country, a bachelor without a family and generally known as a good man." It was signed by Juan M. Dor on April 21, 1835. At that time Houston had a white wife in Tennessee, an Indian squaw in Arkansas and bore a Cherokee name that meant Big Drunk.

At 5 o'clock on the morning of February 1 a prairie owl alighted on a clothesline post a short distance from our bedroom window and began his return engagment talk to the moon. This is an annual occurance and will continue until owls are too busy gathering insects for their young to devote any part of the night to visiting. I have not as yet been able to identify this owl as the one that has perched upon that post in past seasons. As a symbol of wisdom the owl is probably over estimated but he can take care of himself and if you ever trap one BOYS STEAL FIVE watch out. The late Col.
