

EMMET ITEMS

The war time has made time very confusing in the towns and communities who have not gone "all out" for it. The Schools and Churches in Emmet are going by the old time, the business places, bank and mail carrier by the war time and if you think that isn't confusing just try serving meals in a home where the time is so divided. We were under the impression this was a law and every on should turn there clocks ahead. If the time is going to help win this war lets all get together and win it.
