Temperatures go sky-high in India in the summertime, and the men who work in India's iron and steel industry must have almost superhuman stamina to withstand it. Here two punjabi tongmen stand in front of a "man cooler" fan in the Tatas plant at Bombay, which provides armament for the Allies.

New York Primed for Night Attack

It seems as if old Father Knickerbocker has sprouted porcupine quills instead of a beard as he prepares for a possible air attack. Men are manning anti-aircraft guns, and each night huge searchlights (right) scan the skies. The parapet (lower left) protects the men from concussion and bomb fragments during an attack.

HOUSEHOLD HINTS

Metal stains on linens or clothing usually can be removed by covering them with vinegar and salt, bleaching them in the sun, then rinsing them in warm water and washing the usual way.

When cleaning fish the blood should be wiped from the backbone. If it is not properly cleaned the fish may have a musty flavor when cooked.

A faint garlic flavor will give roast lamb an indefinable taste attraction that will make guests ask for seconds. Cut garlic into small pieces and insert them in slits made in the roast before you cook it. Four pieces of garlic will be plenty.

If you have a modern styled kitchen choose curtains of plain colored chintz or crash. Decorate each with three half-inch bands of bias tape sewed on the top and bottom. Use a color that accents the scheme of the kitchen. Sew ivory colored bone rings on each curtain and run them on a curtain rod.

Don't use substitutes for fuses when a fuse blows out. Fuses are safety devices to prevent overloading of wires and fixtures, and to signal when something is wrong. No makeshift gives the same protection. When replacing fuses, it's safer to stand on a dry board, chair, etc., rather than on a damp cellar floor or on the ground.

J. Fuller Pep

By JERRY LINK

Nothing much gets by Old Judge Wiggins' "Fuller," he says to me, "just about the only thing that can keep on growing without nourishment is some folks' conceit."

And speakin' o' nourishment reminds me that you got to get all your vitamins. That's why I keep tellin' folks about KELLOGG'S PEP. 'Course PEP hasn't all the vitamins. But it's extra-rich in the two most likely to be short in ordinary meals—vitamins B and D. And PEP's a jim-dandy tastin' cereal, too. Why not try it tomorrow?

Kellogg's Pep

A delicious cereal that supplies per 1-ounce serving: 1/2 daily need of vitamin B; 4/5 to 1 1/5 minimum daily need of vitamin B1.
