

Uncle Sam's 'Stingers' Guard Panama Canal

These are the first pictures to show the maneuvers of the patrol-torpedo (PT) fleet that is guarding the Panama canal with the co-operation of the army and air forces. In picture at left Charles Kiefer keeps a tight rein on a .50 caliber anti-aircraft gun aboard the command boat of the mosquito fleet. Upper right: A gunner vigilantly scans sea and sky for the approach of enemy forces. Below: The fast traveling 77-footers of the navy skim through the sea looking for trouble.

Horse Finds Place in U. S. War Effort

The horse is not yet "through," as far as war is concerned, his value having been demonstrated this winter on the Russian front. These pictures show two phases of cavalry action in a day's training of the cavalry soldiers stationed at Fort Bliss, Texas. Above, the horse artillery is awaiting the command to move forward to their gun positions. Below, men are demonstrating the speed at which they ride their horses.

All Ready to Dynamite Bridge and Japs

This photograph was taken somewhere in the embattled Philippine Islands. It shows Filipino soldiers who are determined to see that the bridge is completely destroyed, if necessary. The soldier in the foreground is distributing sticks of dynamite to be placed all over the bridge to play havoc with Jap troops, if and when they come.

Danny's Great-Great-Grandparents

Only about one baby in a million could pose for a picture like this one of wee Danny Michael Flanigan, of Memphis, Tenn. Shown are his mother, June Flanigan, 16; his mother's mother, Mrs. Alice Pickle, 35; his mother's mother's mother, Mrs. B. Kidd, 52; and his mother's mother's mother's mother, Mrs. Minnie Hawkins, 70.

Learning the Three R's in China

Guerrilla fighters, farmers and their wives and children assemble for a weekly open air class in reading and writing in a northwestern city in China. With the aid of United China Relief funds, China is making great strides in eliminating illiteracy among its millions as part of its wartime reconstruction program. Since the war began some 90,000,000 Chinese have been taught to read and write, and today they are intelligent citizens of a democracy that is an important ally of the United States.

Relaxing After Battle with Japs

Officers of the warships of a task force of the U. S. Pacific fleet are shown as they relaxed in the ward room after a hot engagement with Jap forces. Note officer (extreme left) with bandaged neck, and perspiration-soaked shirt of another officer at right.

A Welcome Word from Home for A.E.F.

Mail time in any camp is a big time to the soldiers in Uncle Sam's army because it brings word from the loved ones back home, and lifts one out of army life for a brief few minutes. These U. S. soldiers, who are settling down to camp life in their new environment, are pictured receiving their mail somewhere in Northern Ireland.

Australia Looks Aloft These Days

With the Japanese ensconced in bases on New Guinea, only a scant 400 miles from the Australian mainland, the continent "down under" is making feverish preparations for the struggle that is to come. Particular attention is now being given to anti-aircraft defenses, and hundreds of posts like this one outside Melbourne are springing up everywhere.

Works for Ford

Lindbergh and Ford have been fast friends since 1927, when Lindbergh took Ford aloft for his first airplane flight. Photo shows Lindbergh and Henry Ford as they met on Lindy's arrival at the Willow Run bomber plant.

"We can use marines," the President said the other day, in answer to a claim that there were not enough troops in Washington to make a good parade.

Political Tolerance
 Let us restore to social intercourse that harmony and affection without which liberty and even life itself are but dreary things. And let us reflect that, having banished from our land that religious intolerance under which mankind has so long bled and suffered, we have yet gained little if we countenance a political intolerance as despotic, as wicked, and capable of as bitter and bloody persecutions.—Thomas Jefferson.

ARE YOUR Bowels Stubborn?
 Then try kindness! First of all you can't expect them to act unless you give them a chance. Most people make sure to get 2 meals a day. But they never think of giving their bowels a regular time (daily) for evacuation.
 If you've neglected YOUR bowels until they finally became stubborn and unwilling to act, ask your druggist for ADLERKA. It is an effective blend of 5 carminatives and 3 laxatives giving DOUBLE action. Gas is expelled and bowel action follows surprisingly fast. After that, make up your mind to give your bowels 5 or 10 minutes' time at regular hour, daily. Your druggist has ADLERKA.

Sentinels of Health
 Don't Neglect Them!
 Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood streams free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste that the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.
 Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.
 The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. An endorsed the country over. Insist on Doan's. Sold at all drug stores.
