TO ALL PERSONS INTERESTED IN SAID ESTATE, BOTH CREDITORS AND HEIRS:
You are hereby notified that on the 28th day of May, A. D., 1942, Tony Asimus and Carl Asimus, petitioners, filed their supplemental petition in the above matter setting forth, among other things, that James Dixon, a citizen, resident and inhabitant of Holt County, Nebraska, died intestate on the 16th day of May, 1897; that he died seized and possessed of the following described real estate, situate in the County of Holt and State of Nebraska, to-wit:

A WEEK OF THE WAR

Army Air Commander Arnold told a press conference in London that United States fighter and bomber planes will soon join the British Air Force in bombing Germany. U. S. pilots will have their own air fields and ground crews, he said. "We shall hit the enemy hard and relentlessly until his military power is broken," Gen. Arnold said. "It is obvious that no offensive against Nazi-occupied Europe can succeed without air superiority and we mean to have it."

Army services of Supply Chief Somervell, also in London, said U. S. and British officials are working on a program to standardize military equipment, including tanks and planes, so such equipment may be exchanged freely. Chief of Staff Marshall said American troops are "landing in England and they will land in France."

Production

Under Secretary of War Patterson reports the country's goal of 60,000 tanks and tanks margin," and tank production are being kept pace with schedules. He said the Army Ordnance monthly deliveries are 458 times as great as two years ago. The WPB said production of new machine tools is 72 per cent above last year. The House passed and returned to the Senate legislation setting up a smaller plants corporation which will make loans to

small firms to enable them to obtain war contracts. The Commerce Department issued suggested procedures for establishing business wartime clinics to aid local business men in working out current problems of dislocation and changes in their businesses.
