Mrs. Ingrid Widtfeldt

Mrs. Ingrid Widtfeldt died at the home of her son, David, in this city Wednesday morning at 12:45, after an illness of about six weeks, at the age of 82 years, four months and twenty-five days. The funeral will be held Friday afternoon at 2 o'clock and burial in Prospect Hill cemetery, at the side of her husband, who passed away in October, 1927.

Mrs. Widtfeldt was born in Sweden on March 31, 1860. She came to the United States in 1882 and located in Omaha. In 1887 she came to this county with her husband, where she made her home up to the time of her death. She was the mother of eight children, four sons and four daughters, seven of whom survive and are left to mourn the passing of a kind and affectionate mother. The children are: Mrs. Esther Anderson, Valley, Nebr.; David Widtfeldt, O'Neill; Mrs. Eldur Wedberg, Fremont, Nebr.; Carl Widtfeldt, O'Neill; Henry Widtfeldt, Omaha; Helmer Widtfeldt, Merriman, Nebr.; Mrs. Martha Peterson, Council Bluffs, Iowa. She is also survived by eighteen grandchildren and four great grandchildren. Mrs. Widtfeldt had been a resident of this county for fifty-five years, the family living for many years on a farm about fourteen miles northeast of O'Neill. She was one of the pioneers that settled in that section of the county in the early days, whose number are rapidly being depleted by the grim reaper. She had a host of friends among the old time settlers of that section of the county, who will regret to learn of her passing.

REPUBLICANS HELD THEIR CONVENTION HERE TODAY
(Continued from Page One)

Washington constitutes, we hold, the only effective weapon against inefficiency, waste and incompetence or against any other feature that will retard the winning of the war.

2. We demand that no official or group of officials be permitted after the war to continue to impose those restrictions and limitations upon freedom which, during the war, are cheerfully borne as essential for the national safety. Our nation's return to peace must mark our resumption of the traditional American personal freedom of life.

3. We endorse the candidacy of all Republican Senatorial and Congressional nominees, together with all the Republican nominees for state and county offices, and recommend them to the voters as capable and economical and devoted to the American theory of government and way of life, and we pledge them our hearty support.

4. We commend the patriotic, efficient, economical administration of our state government under the leadership of Governor Dwight Griswold.

5. We recommend our candidate for the United States Senate, Kenneth Wherry, and heartily commend him to all voters. He has been farmer, laborer and merchant and is familiar with and sympathetic to all the many problems of each.

6. We condemn the present primary system and advocate its amendment so that a convention of the party may, prior to the primary, examine the qualifications of the several candidates who aspire for the offices to be filled and by vote recommend to the party those most qualified and capable.

7. We invite all citizens who believe in the American system of free democratic government administered with honesty, efficiency and economy to support the Republican candidates.

Pointers For Removal Of Fruit Stains

Fresh fruits to eat are one of the pleasures of summertime, but they often leave marks on table linen and clothes that become ugly stains unless they are treated promptly and correctly.

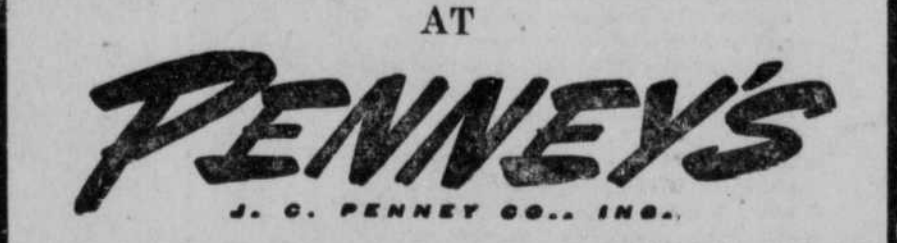

As part of the wartime campaign to conserve fabrics, the county agent's office this week furnished some tips on removal of fruit stains from cottons and linens.

Start working on stains while they are still fresh and damp, if possible. In any case, remove them before you launder the fabric. Alkalies, such as in soap, and heat from the iron "set" some fruit and berry stains, making them difficult and sometimes even impossible to get out.

Boiling water will remove most fruit stains from white or color-fast cottons or linens. Stretch the stained cloth over a bowl, and fasten with a string so it cannot slip off. Then pour on the water from a height of 3 or 4 feet. If necessary, rub the fabric between applications of boiling water, to help loosen the stain. Sometimes even warm water will work successfully in removing a stain.

If the stain is not gone completely when you have finished the water treatment, put a little lemon juice on the spot and put it in the sun to bleach. Or you can use one of the chemical bleaches, such as hydrogen per-

oxide and sodium perborate, hydrodiphite; or javelle water. To remove stains from fresh peaches, pears, and plums, use cold water and glycerine. First, sponge the stain well with cool water. Then put several drops of glycerine, or a soapless shampoo, on the stain—enough to cover it. Work in by rubbing the fabric between your hands. Let it stand for several hours, then put on a few drops of vinegar or oxalic acid. Allow it to remain for a minute or two, and then rinse well in water.

is for "Line Crews"
That work night and day
Keeping service on schedule
Come weather that may

"Service must go on" is the battle cry of your Consumers line crews—whether their work must be done in sub-zero or sub-tropical weather. And usually it is in extreme weather when line crews have their hardest tasks to perform, for bitter sleet storms or crashing "electrical" tempests are the occasions for the greatest havoc worked against the power facilities which serve you. But these men of service, skilled in their work, go about their jobs without complaint, knowing that failure to do their work may seriously handicap or inconvenience you—the customer—to whom they are responsible for the most constant reliable electric service Nature will permit and man can provide.
