

### Jiggers, Japs! Here Come the Marines!

Above photos were taken immediately before and after the U. S. marines blasted the Japs from at least six of the Solomon islands. The amphibious tractor at top carries marines approaching the entrance to the first Jap army camp on Guadalcanal islands. Lower left: A deserted Jap machine gun emplacement is inspected by marines. The U. S. invaders tossed dynamite sticks down the holes to quiet the defenders. Right: Yanks set up emergency radio outfits for communication with advancing patrol forces of Leathernecks and ships of the fleet.

### The Well-Dressed Commando—From Stem to Stern

The camera got real close to this hard-bitten Commando trooper as he and his buddies returned from the raid on Dieppe, and succeeded in getting the lockdown on what the well-dressed Commando wears. And it's plenty! At left is a rear view, showing the pack and tools. (Center, front view.) Notice the brass knuckles and dagger in belt. The tube across the man's chest is attached to a life preserver. Tube is used to inflate the Commando goes into the water. Right: An extra dagger carried in the scabbard in the Commando's gaiter. Note boots, armored for cliff climbing or high jumping.

### New Troop-Carrying Glider for U. S. Army Built in 24 Days

Shown above in the air and on the ground is the army's 15-place troop-carrying glider, the CG-4A, now in quantity production at Wichita, Kans. In the hands of a skilled pilot the glider can be landed in almost any small field or pasture. The glider has a wing span of 83 feet and 8 inches, and weighs only 3,000 pounds. Note troops boarding glider in lower picture. Gliders of this type may be used against Axis when invasion time comes.

Henry J. Kaiser handed to his government a 10,000-ton Liberty ship, the John Fitch, shown above, which was built in only 24 days. This shattered all records. By assembling the engine that went into the ship in just 30 hours another record was broken. Photo shows the launching from the Richmond, Calif., yards.

### Milk Delivery on Pacific Isle Base

Here you see USAAF officers sampling local coconut milk delivery on a South Pacific island airbase. The coconuts are a far cry from the containers in which their milk once was delivered "back in the states."

### 'Pudding Bomb'

The "pudding bomb," used with good effect in the Egyptian desert, is said to be more potent than the "Molotov cocktail" for rendering German tanks hors de combat. Thrown at a tank, the "pudding" sticks to the side until it explodes.

### Pacific Fleet's Cincus With Jap Sword

Adm. C. W. Nimitz, commander in chief of the Pacific fleet, holds the samurai sword of the Japanese commander at Makin islands, after the recent successful raid by U. S. marines, in which Maj. The highway was started in 1936 and will not be finished until 1944. The bottom picture is a construction scene in a hill section of the country.

### They Met the Enemy—and He Was Theirs

Up to the time this picture was made, U. S. Flying Fortresses had made 100 daylight raids on Europe without the loss of a plane. This one was attacked by a flock of German Focke-Wulf 190's while returning from an assignment. A cannon shell hit the ship, killing the co-pilot. Two of the engines were put out of action, but the ship came home safely. Crew members here examine the rear turret.

How to stump your friends: Ask them what is the first bugle call of the day in the Army. It's ten to one they'll say "Reveille." They'll be wrong. It's "First Call." Most of your friends know, though, that the cigarette that gets first call with Army men is Camel. And Camel is the favorite with men in all branches of the service—Navy, Marines, Coast Guard, too. (Based on actual sales records from service men's stores.) And a carton of Camels is their favorite gift. Local dealers are featuring Camel cartons for service men now.—Adv.

### Sentinels of Health

**Don't Neglect Them!**  
Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out. Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use **Doan's Pills**. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.
