We Ask Your COOPERATION For the Duration

Tire, automobile and manpower shortages occasioned by the war have made necessary some alterations in the service policy of your Consumers Public Power District.

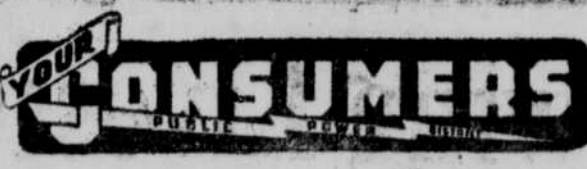

24 Hours Notice on Service Calls Requested

Therefore, we ask that whenever possible, you bear with us for twenty-four hours after you request service. This will make possible scheduling or routing calls to conserve tires and trucks. We encourage you to keep appliances in repair, but if possible, we request you to bring those appliances to our repair station, rather than to call us to pick them up. In replacing a worn-out part, it is now necessary for you to submit the disabled part to us before the replacement can be ordered. We solicit your cooperation on all these matters. Your appliance dealer or electrical contractor can also assist you to keep your appliances in good repair.

A few SERVICE "Hints"

Keep extra fuses of the right size on hand. Know where your fuse box is located. Ask your meter reader how to install a fuse. Inspect cords and plugs on appliances. If frayed or broken, consult your electrical dealer or contractor for repairs or replacements. Have present appliances not now in use, inspected by a competent repairman. A simple adjustment may be all that is needed. Keep lighting fixtures (particularly sockets) free from bugs or debris. IF YOU OWN AN ELECTRIC RANGE, AND CONTEMPLATE MOVING TO A NEW LOCATION, BE SURE TO CONSULT US BEFORE DOING SO. Wire restrictions in certain cases render impossible the re-installation of an electric range in homes where present wiring is inadequate.
