Labor Supply

WPB Chairman Nelson ordered a 48-hour work-week established in lumber camps and sawmills in the Pacific Northwest because log inventories are the lowest in five years. To relieve growing labor shortages, War Manpower Chairman McNutt ordered that workers in the lumber and non-ferrous metal industries in Arizona, Colorado, Idaho, Montana, Utah, Wyoming, California, Nevada, Oregon, Washington, New Mexico, and Texas, may not seek jobs elsewhere without obtaining "certificates of separation" from the U. S. Employment Service, and no employer in the critical area shall employ such a worker if he has no certificate. The industries affected employ approximately 200,000 workers.

IT WON'T BE LONG BEFORE RAYON HOSE WILL BE UNIFORMLY WORN

Silk is out for the duration. Nylon is on its last legs because it has been taken over for war purposes. When present silk and nylon stocks are gone, and that will be soon, rayon stockings, save for a few inexpensive cottons, will be all that's left to buy—or wear. The war front must come before the home front. But rayon stockings are so improved now that you can hardly tell them from the silk or nylons you have been treasuring. However, if rayons are not properly cared for, you won't get proper fit or service from them. And this depends largely upon YOU.

Recently a customer complained that her rayons became slack and baggy after wearing, did not give the service expected. It developed that the stockings had been worn before being thoroughly dry. Rayon is a cellulose product—a yarn made from wood fibers. When wet it absorbs water like a fallen log in a forest. Even when the outside appears dry the core of the yarn may be damp. In this condition it has less strength, will "pull" or stretch

DO THESE THINGS TO GET THE MOST OUT OF RAYONS
1 Buy them wisely. Check foot and length measurements to individual requirements. Proper size is necessary for proper wear.

- Put them on carefully. Avoid runs. Do not catch or snag them.
- Wash after wearing. Rayons, like others, will give better service if washed right after wearing. Use lukewarm water and a mild soap.
- Don't rub them. Squeeze the stockings. Rinse well. Do not twist or wring, but squeeze out the water. Hang on smooth rod to dry, away from direct heat and sunlight. Use no clothespins.
- Dry thoroughly. We suggest that you have three or four pairs in order that washed stockings be not worn until the following day.

Give your legs their just desserts by buying two or three pairs of Brown-McDonald's Silhouette No. 175, a full fashioned rayon stocking; 75 denier (referring to thickness of thread) equivalent to a semi-service weight silk. In new shades called Victorious and Glorious, smart variations of warm, rose beige. \$1 pair.

NOVEMBER 1 LAST MAILING DATE TO INSURE GIFTS FOR MEN OVERSEAS

If you have some one in service overseas, it's not a bit too early to begin Christmas shopping for him. The postoffice asks you to mail packages early. This is one way to insure Christmas cheer (and you'll keep the postoffice chaps in good humor.)
