

## 'Black Gold' for Atlantic Seaboard Begins to Flow

Tank cars at Norris City, Ill., the temporary mid-western terminus of the Texas-to-Illinois pipeline, are loaded (left) for the first shipment of oil to the Atlantic seaboard. Oil started flowing through the pipeline recently at the rate of 50,000 barrels daily. At right, W. Alton Jones, president of War Emergency Pipe Lines, Inc., turns valve to load the first tank car from the pipe line at Norris City. Inset: Train of tank cars to speed oil to Eastern seaboard to relieve fuel crisis.

## With U.S. Troops in Jungle Outpost on Burma Border

These pictures were taken at a U. S. army air force base in India. At left, a soldier busily packs a bale of supplies, food, and games to help combat the monotony of the boys who man our jungle outposts along the Burma border. The supplies are dropped by parachute. Center: U. S. troops in a trailer-hauling jeep cross a stream. The bridge is constructed of bamboo. Right: Scene inside one of the big army transport planes that does the job of keeping U. S. outposts supplied.

## A Senegalese Father Goes to the Front

Except for the color of their skins and the manner in which the mother carries her child, this scene is a duplicate of what goes on at railroad stations all over America and Britain. It took place in Dakar, French West Africa, as a French colonial regiment entrained for the Tunisian front. The child seems big enough to start getting around on its own.

## Buna Battle Trophy

Sergt. James M. Cox of Jackson, Miss., holds a huge pair of binoculars captured from the Japs at Buna. All the equipment the Japs had at that New Guinea base was either destroyed or captured by U. S. troops when they wiped out the last Jap forces there.

## Jewish Children Pray for Kin in Nazi Lands

About 5,000 Jewish children from 518 religious schools in Greater New York gathered in solemn assembly of prayer and protest at Mecca temple for the children in Nazi-occupied countries. Ingeborg Jacob of Germany is shown here as she lights the memorial candle for those who died in the Nazi wave of terror.

## U-Boat Skipper

This German U-boat captain poses for the camera man after his sub was beached at Oran, Algeria. British depth charges damaged the sub so badly that it was a case of surrender or sink.

## Where Tunis Air Raid Was Plotted

The roulette table in this old gambling casino in Tunisia is the plotting room for planning the air raid on the Axis-held El Auina field, Tunisia. This was prior to the great tank battle of Kasserine Pass, in which American armored forces, after serious reverses, hammered back Rommel's dangerous thrust westward towards Tebassa.

## Flying Fortresses Foray in Solomons

Leaving fire and destruction in their wake, U. S. army Flying Fortresses carry out a bombing sortie on Japanese installations on Gizo island in the Solomons. The raid was part of a triple-pronged aerial thrust against the enemy during the fight for Guadalcanal. The starboard wing of the Flying Fortress from which a U. S. navy photographer snapped this picture is visible at the extreme right.

## Jap Zeros in Alameda Naval Base

The Alameda naval air base, California, had a visitation of Japanese float-type Zeros, but no bombs were dropped. The planes, in various stages of disrepair, were shot down in the war zone and brought back for such purposes as the navy department may see fit to put them to. Photo shows a sample of what happens to these frail Japanese craft when they come under the guns of U. S. forces in the Pacific.

## Little Brown Church in Wildwood

This chapel of Our Lady of Loretto was erected by U. S. soldiers at an American base in the South Pacific. The chapel is used for Catholic and Protestant services, and is well attended.

## Governor of Algeria

When High Commissioner Henri Giraud announced the appointment of Marcel Peyrouton as governor general of Algeria it created quite a stir there, which later subsided when the appointment was sanctioned by the United Nations. Here we see the new Algerian governor general seated at his desk executing the duties of office. His aide, J. Fabregoule, stands behind him.

## Gets 'Low Down'

Lieut. Gen. Leslie J. McNair, commanding general of the army ground forces, is shown here questioning Private Edward Gall, training-toughened glider infantryman, who has just finished running the difficult obstacle course at Maxton-Laurinburg army air base in North Carolina.

## Hat Blackout

Luminous straw hats will be the rage this summer, what with blackouts and dimouts. This excellent safety device is a straw hat for men treated with luminous paint, which will glow for hours after a moment's exposure to day or electric light. Above, hat is shown before being treated, and below is a picture made by the hat's luminous qualities as it would appear to an automobile driver at night.

## Our Prisons Are Doing Part in Defeating Axis

American prisons are now producing millions of dollars worth of war materials, says Collier's. Air-raid sirens are being made at San Quentin; shirting for the navy at the Alabama state prison; bomb parts at the federal penitentiary in Lewisburg, Pa.; and cartridge belts at the reformatory for women in Alderson, W. Va.

Even large patrol boats for the army are being built entirely by the inmates at McNeil Island.
