

## Navy All Set for Biggest Job

Since the days of John Paul Jones, founder of the United States navy, the story of our navy has been one long chapter of splendid progress. While many glorious victories have already been rolled up by the U. S. navy in World War II, yet, in the language of John Paul Jones, "we have just begun to fight." Whatever may be ahead, the navy will come through. These pictures give you some of the reasons why.

In the picture above, American soldiers are being transferred from a navy launch to a smaller boat during maneuvers designed to acquaint both soldiers and sailors with amphibious warfare. Picture shows the troops in regular battle dress.

Right: Disarming a foe. Here two U. S. navy pre-flight cadets demonstrate the proper method of disarming a foe in hand-to-hand combat. It's done realistically, too.

U. S. soldiers (left) go ashore from a navy ship in practice landing operations. **ABANDON SHIP DRILL...** (Below) It takes only a few seconds to separate the rafts by the first men over the side. Each man has a job to do.

Seated on a bosun's chair, Sgt. Husesky, member of the crew of a U. S. army Flying Fortress forced down at sea, gets strapped in before being transferred from a destroyer to an aircraft carrier. The trip was accomplished without mishap.

Small crews are typical of coast guard reserve vessels that have been converted from luxury sailing craft.

GUARDING THE CANAL... Armed with machine guns, torpedoes and depth charges, a navy PT boat skims through the Caribbean on the lookout for hostile subs.

## PATTERNS SEWING CIRCLE

8207-C 3-8 yrs.

8368 10-20

**Her Own Bolero**  
IT'S true, not every little girl can boast a bolero dress of her own! This one is something very special with its heart-shaped neck, huge pockets and bow-tied belt. The bolero itself might be worn with other dresses.

Pattern No. 8207c is in sizes 3, 4, 5, 6, 7 and 8 years. Size 4 bolero and dress take 2 1/2 yards 35-inch material; 4 yards rick-rack.

### Household Hints

If your time is limited cut the vegetables into smaller pieces than usual; they will cook more quickly.

Since crisp cookies and crackers soften if kept with bread and cake, keep them in airtight tins or boxes of their own.

The best coat linings are made of slippery material which will help to get the coat on and off easily.

Do not wash eggs before putting them on ice as washing destroys the protective film that keeps out odors and air.

Children are more apt to like helping with the family work if they are also permitted to help with the planning of the work.

A common clothespin, split in half makes two ideal and economical pan scrapers which do not rust or scratch enamelware or precious aluminum.

Stirring air into hot food during cooking or sieving increases vitamin destruction by oxidation.

Lemon juice sprinkled over sliced fruit will prevent it from turning dark.

If the sugar in a pie is placed between two layers of fruit, the juice is less likely to boil over.

When armored knights met, it was customary for each knight to raise the visor of his helmet as a means of identification. This gesture has come down through all armies in the form of the salute. Traditional, too, is the Army man's preference for Camel cigarettes. With men in the Army, Navy, Marines, and Coast Guard, actual sales records in their service stores show that Camel is the favorite. It's one of the favorite gifts with service men. And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to men in the Navy, Marines, and Coast Guard wherever they are.—Adv.

**Width Whittler**  
HERE is a real irresistible—a beautifully cut princess that whittles your width down to the minimum. It has such charm, too, with its neck-to-hem parade of bright rick-rack. Many a girl won't be able to put it down once she starts sewing on it! Sew and Save.

Pattern No. 8368 is in sizes 10, 12, 14, 16, 18 and 20. Size 12 takes, with short sleeves, 3 3/4 yards 38-inch material; 12 yards rick-rack trimming.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

### 60 Was Basic Number Unit in Ancient Babylon

The ancient Babylonian numerical system had 60, not 10, for its basic unit, reports Dr. George C. Cameron, University of Chicago archeologist who has been deciphering thousands of clay tablets.

While 10 can be factored evenly only by one, two, five and itself, the Babylonian unit had the advantage that it could be factored by one, two, three, four, five, six, ten, twelve, fifteen, twenty, thirty and itself.

## Smile Awhile

**One to Fit**  
Dave, having had a good week, decided to buy his wife a present. He picked up the dining-room table, carried it out of the house, put it on top of his head, and was ambuling down the road when Bill Smith met him.  
"Hullo, Dave," said Bill, "are you moving?"  
"No," replied Dave, "I'm going to buy Mabel a tablecloth."

**Compensating**  
Doctor (after examining patient): "I don't like the looks of your husband, Mrs. Brown."  
Mrs. Brown: "Neither do I, Doctor, but he's good to our children."

**Middle-Age**—When a man ceases to grow vertically and starts to grow horizontally—at the middle.

**Bulls'-Eyes**  
Tattered and bandaged, he was applying for a separation order.  
"My wife ain't safe, sir," he pleaded. "She's been throwing things at me ever since we got married."  
"And only now, after 20 years, are you seeking the court's protection," said the magistrate, skeptically.  
"Well, sir, her aim's getting good!"

### 25 Tons of Violets for One Ounce of Perfume

Ever since the dawn of civilization woman has used perfume as an allure. At one time, when baths were looked upon as both unhealthy and ungodly, perfume was a necessity, but since then women have used it as an added attraction, something that accentuated their femininity.

Some of the best perfume came from France, Italy and the Balkans. In those countries perfume-making was a very important trade, and millions of roses, jasmine, violets, and other flowers were harvested. These were bruised, boiled, and pulped until they had given up their oils.

The petals were boiled in water, the steam caught and condensed, and the essential oils skimmed from the surface. It was an expensive process, too, for it took 3,500,000 roses to make one quart of pure perfume. One ounce of pure violet perfume was the result of the compression and pulping of 25 tons of blooms.

When the oil was finally extracted it was very strong, and a single ounce of it would be sufficient for many thousands of bottles.

**Or Did They?**  
"The law of gravity explains why people stay on the earth."  
"How did they stay on before the law was passed?"

**Relapse Coming**  
Young man in hospital—Nurse, I've fallen in love with you. If I get well I'll have to leave, so I don't want to get well.  
Pretty young nurse—Don't worry, you won't. The doctor's in love with me, too, and he saw you kissing me this morning.

**Quite Doubtful**  
"What is political economy, dad?"  
"To be perfectly candid, son I can't tell you. Sometimes I think there isn't any such thing."

**Fair Question**  
"I say, waiter, is this peach or apple pie?"  
"No."  
"Can't you tell by the taste?"  
"Then what difference does it make?"

## ASK ME ANOTHER?

A General Quiz

**The Questions**

1. What is the approximate weight of the average incendiary bomb?
2. Which is lighter, a steel ship or a wooden one of equal dimensions?
3. What is an apostate?
4. What is a will-o-the-wisp?
5. What is a chinook?
6. What two large cities in the United States, one on the East coast and the other on the West coast, have the same name?
7. What is a foot-pound?
8. What does nadir mean?

**The Answers**

1. Two pounds.
2. Steel ship.
3. A renegade.
4. A mysterious light that appears above marshes.
5. A wind.
6. Portland, Maine, and Portland, Oregon.
7. The energy required to lift one pound to the height of one foot.
8. The lowest point.

# SAVE WITH CEREALS

any time of day!
