

Area of U. S. Push in North Pacific

The strategic position of Attu island, in the Aleutians, where the navy landed strong forces to engage Japanese troops, is graphically shown in this official U. S. navy map. Japanese troops occupied the island about a year ago. In the upper left hand corner is a chart of the comparative distances from Attu to various points in the Pacific area.

Death, Destruction, From Six-State Flood

Rushing water from rivers swollen by several days of incessant rain overflows onto six midwestern states. Thousands of persons in the inundated areas were left homeless by the flood, and so much planting has been ruined that food production in the area is seriously threatened. Above: Soldiers in Indiana erect a sandbag dike. Below: A Boy Scout rescues another youth.

Sew-On Chair Covers In the Smart Cottons

SEW-ON covers of chintz or other smart cottons are always neat and trim and, since the pieces are all sewn to the old upholstery of the chair with rather long stitches, it is not difficult to remove the cover for washing or cleaning. If

washed at home it is much easier to handle separate pieces than an entire slip cover.

A sew-on cover should be pinned with a 4-inch tuck-in around the spring seat and 1-inch seam allowances. Use tailor's chalk to mark stitching lines and indicate pieces to have welting stitched to edges. Here, welting is used for the side seams of the inside center back section; across the front of the seat; for the top and bottom of the outside; and all around the front of the arm sections. The sketch shows how welting and unwelting pieces are sewn in place. The welting hides the stitches if you use heavy duty thread matching the cord covering.

NOTE—The new BOOK 10 of the series of booklets offered with these articles gives other valuable pointers on making both sew-on covers and removable slip covers. BOOK 9 gives directions for repairing the springs of chairs before covering them. BOOK 8 and 10 are 15 cents each. Send your order to:

Assembly Line in Southwestern Pacific

Mechanically minded American soldiers are taking their mass production assembly line methods with them to the Southwest Pacific. Here troops take parts of trucks, jeeps and ambulances as they come from the ships and put them through the line. One improvement on the assembly line system is their "Change over." When the boys tire of one operation, a command switches all members of the line to a new position and a new job. Left, rear running gear of a two-ton truck is assembled. Right, a cab is added to the truck and soon it will be ready for duty in a battle zone.

Maltese Tribute to Stalingrad

A stone shelter on Malta, most bombed spot on the earth, bears the name "Stalingrad." It is a tribute from Malta to the Russian city which also rocked under Nazi mass raids, yet held out grimly to victory. Beneath Malta a great system of subterranean workshops hewn from solid rock were the battle stations of thousands of workers who made British tools of war even as Axis bombs exploded above them.
