### Poultry Culling School Was Well Attended

Eighty interested persons including the Vocational Agricultural Class from the O'Neill High school attended the poultry culling school in O'Neill last Monday. The meeting conducted by County Agent Lynde Stout, cooperating with Ralph Leidy of the O'Neill Hatchery, was held to encourage a January culling campaign to conserve feed and fit in the national goals for 1944.

Mr. Leidy pointed out the fact that it was better from a feed and profit standpoint to have 100 hens which would produce \$1.00 labor income each in a year than a flock of 1,000 which would yield only 10c in labor income. Those present were encouraged to cull their flocks to allow 3 to 4 square feet of floor space for each bird and to carry out a feeding program to get the maximum production from the existing facilities.

In this manner the War Food administration hopes to obtain 200 million pounds of dressed poultry from the sale of 50 million hens before February 1st of this year and still increase egg production by 2% on no more feed than was used last year.

To meet the serious shortage of protein in poultry rations it was brought out that five gallons of skim milk daily with home grown grains will furnish an adequate laying ration for 100 laying hens.

An interesting demonstration and discussion was held on the points to consider in culling hens. A discussion on sanitation and disease prevention was held along with the exhibit of practical poultry equipment.

Two new publications are now available at the county agent's office in O'Neill. They are the "Poultry Manual" Extension Circular 1400 and "Practical Poultry Equipment" Extension Circular 1441. These will be furnished free upon request.

### An Historic Statement

"Squandering the people's money, even in wartime, is no proof of patriotism." A member of President Roosevelt's Cabinet must be credited with this ringing declaration. It merits being characterized as the outstanding statement-of-the-year for 1943. It should be set in black-face type standing on the editorial page of every newspaper in the U. S. A. "for the duration."

America's patriotic millions of taxpayers may recall that this striking sentence appeared in a letter from Secretary of Commerce Jesse Jones to Chairman Carter Glass of the Senate Appropriations Committee, accompanying Mr. Jones' detailed answer to Vice-President Wallace's charge of Reconstruction Finance delays in handling strategic imports under directives from the Board of Economic Warfare.

In his letter Mr. Jones referred to Mr. Wallace's attack charging obstructionist tactics as "a tirade filled with malice, innuendo, half truths and no truths at all." He further charged that "BEW has frantically sent at great expense many 'missions' composed of inexperienced men to all parts of the world" and insisted that "RFC believes that a maximum of production can be obtained in a minimum of time and at a minimum of expense without resorting to methods bordering on the hysterical."

"As for the charge which Mr. Wallace appears to regard as a major issue, that I have attempted to safeguard the taxpayers' money, I must plead guilty." Secretary Jones confessed. Then followed the historic sentence quoted above, with this sensible suggestion: "Wallace's attack charging obstructionist tactics as a 'tirade filled with malice, innuendo, half truths and no truths at all.' He further charged that 'BEW has frantically sent at great expense many 'missions' composed of inexperienced men to all parts of the world' and insisted that 'RFC believes that a maximum of production can be obtained in a minimum of time and at a minimum of expense without resorting to methods bordering on the hysterical.'"

L. C. Jonas made a business trip to Norfolk Monday.

### To the People of this Community

THINK IT OVER How about doing a little cold turkey thinking after you lay aside this newspaper tonight? You've got a good job. The chances are there is someone else in your family, perhaps two or three, working. Your son or your brother may be away at war.

This war must end sometime. Your whole family, your neighbors, are praying it ends soon and those fighting boys of yours will come home safely. But will you be ready for whatever happens when peace comes? Will you have something laid away? We're all hoping there'll be jobs aplenty, jobs which mean making something for somebody's happiness and not for somebody's sorrow. That's where your War Bonds come into the picture. Sure, Americans own billions of dollars of War Bonds now; and before this 4th War Loan ends they will have put away billions more. But how about you? You're the one that counts. The bigger the pile of War Bonds you have when peace comes, the bigger chance you'll have to slip right into the post-war world you're dreaming about tonight. So "Let's All Back the Attack." THE EDITOR.

### Shortage Of Oats And Barley Seed

R. C. Kinch, state seed analyst of the Department of Agriculture and Inspection, said today that with winter wheat in such a poor condition, the demand for oats and barley for seeding purposes is expected to far exceed the available supply. He urged that all farmers expecting to purchase seed oats and barley this spring do so at once, and all farmers and elevator operators with supplies of these two crops, have tests made to determine whether the grain is suitable for seed.

Mr. Kinch indicated that word had been received from the Office of Price Administration to the effect that oats and barley which had been cleaned, tested, labeled, and sold for seeding purposes was exempt from the maximum price ceiling regulations that apply to these grains.

The improved varieties of oats, such as Tama, Boone, Cedar, Vicland, Marion, Trojan and Oteo should be obtained if at all possible. Spartan is the leading variety of barley, and supplies of it may be found throughout the entire state. Germination tests on barley during the past two months have shown that about 25% of the Spartan and other two-rowed varieties had other two-rowed varieties germinated less than 85% and have been damaged to the extent that they could not be considered suitable for seeding purposes.

### Civilian Food Supply Is Equal To 1935-39 Period

The civilian food supply for the twelve months beginning October 1, 1943, will be about equal to the amount consumed in the average year of the pre-war period, 1935 to 1939—and there will be fewer civilians to eat it. The civilian population has declined as our armed forces have expanded. The shares allocated to U. S. civilians vary for different commodities depending upon the adequacy of the supplies and the volume of military and other needs. Altogether, civilians are getting about 75 per cent of the total food supply. Considering the period 1935-1939 as 100, per capita civilian food consumption this year is estimated at 103 compared with record-breaking "feasting" at an index level of 108 in 1942 and 111 in 1941.

The fact that American farmers are providing immense quantities of food for war needs and still furnishing civilians about as much as before the war is due, of course, to the tremendous increase in farm production since the war started. Total food production this year is exceeding the 1935-1939 average by 32 per cent.

In brief, U. S. civilians will have about as much to eat next year as before the war and our soldiers, sailors and marines will continue to be the best fed armed forces in history.

Below is a table showing the estimated civilian per capita consumption of selected food from October 1, 1943, to September 30, 1944, as compared to the average consumption for other years:

	Per Capita Consumption	Per Capita Allocation
	1935-39	1942-10-1-43
	Average	9-30-44
Total meats	126.4	134.5
Butter	16.8	15.7
Other fats, oils	32.1	29.9
Fresh milk	273.8	302.8
Eggs	37.5	40.1
Cann. vegtbls.	32.1	43.0

### Women's Division NWF Active In Campaign

The Women's Division of the Nebraska War Finance Committee has accepted the task of raising \$14,500,000 in the Fourth War Loan starting Tuesday, according to Mrs. Robert H. Thorpe of Omaha, state women's chairman.

In accepting this quota, thousands of Nebraska women working under the direction of 93 county war finance committees will endeavor to raise enough money chiefly through the sale of series "E," "B" and "G" Bonds to completely outfit the 94,000 Nebraska men who have entered the various armed services.

"It costs approximately \$150 to completely clothe one soldier," said Mrs. Thorpe. "We have broken down this quota by counties according to the number of men from a county who have entered the services."

"This quota is not an additional quota but is a part of the regular county quota set by the State War Finance Committee for the fourth war loan."

"We feel that the mothers, wives, sisters, daughters and sweethearts of the men in service will want to take part in helping the women's division of the War Finance Committee by actively working as sales solicitors in this campaign and by purchasing bonds themselves to the limit of their ability."

"This war cannot be won except by spending a vast sum of money for clothing and other necessities for our fighting men. I am pleading with every woman of Nebraska to sacrifice in time and effort and money so that these boys of ours will be properly clothed and fed and equipped to win the victory we all desire," said Mrs. Thorpe.

Reports on the women's phase of the fourth war loan will be made by county women chairmen directly to the state office in Omaha and will then be forwarded to the national headquarters in Washington.

"Co-operation and hard work will put Nebraska over the top," said Mrs. Thorpe. "Nebraska women have never failed in their patriotic duty and I am sure that the women of Nebraska will lend the fullest measure of their co-operation in the Fourth War Loan."

### St. Mary's Cardinals Win One Lose One

The St. Mary's Cardinals basketball team traveled to Inman last Friday where they suffered their fourth straight setback by the score of 32-21. It was a very good game and not nearly as sided as the score indicates. The Cardinals seemed to have a hard time getting used to the small floor and of course the boys from Inman are always hot on their home floor. Wilson and Campbell led the losers with five each, while Appleby was the leading scorer of the evening collecting thirteen points.

The Cardinals went to Spalding Sunday where they played the Shamrocks from Spalding Academy. This was a very good game, and, although at first the Cardinals were off due to the small floor, but by the third quarter they had the situation well in hand and won their fifth game of the season with a score of 32-26. Grady was the individual star of the afternoon, playing a great floor game and also collecting nineteen points, while Jack Wray led Spalding with sixteen points to his credit.

The Cardinals next game is Friday night in the O'Neill auditorium where they have a game with the Eagles of the O'Neill High school. This should be a very good game between the two O'Neill schools and let us all attend and cheer the boys on the road to victory and let the best team win.

Monday night the Cardinals have another home game with Inman High. The Cardinals are really out to win these games so let us be there.

**Confederate Home**

Near Biloxi, on the Gulf of Mexico, stands the last residence of Jefferson Davis and the house where the confederate president completed his memoirs.

Beauvoir now is a home for Confederate veterans.

Defeated men may live in peace and honor under the Stars and Stripes, but under the crooked cross of Nazism there is only ignominy, persecution, death for those who will not bend the knee.
