## Light Vote Is Cast In Primary Election Tuesday, April 11th

The Primary election is a thing of the past, and was one of the lightest votes cast with only about one-third of the persons voting. Not only in Holt County was this true, but all over the state. The unofficial vote in Holt Co. is as follows:

## R. H. Shriner New Head Of Commercial Club

The O'Neill Commercial Club held its annual election at its meeting at the Golden Hotel Tuesday evening and elected R. H. Shriner its president for the coming year. The following other officers were elected: Ted McElhaney, first vice president; Cliff Lundgren, second vice president; Bennett Grady, treasurer; R. C. Anderson and L. D. Putnam, directors for one year to fill out vacancies and Ralph Rickly and W. B. Spelts directors for the regular three year term.

The annual report of the treasurer disclosed that the Club now has a paid membership of some eighty members and that its financial position is strong.

A resign vote of thanks was tendered the outgoing president, Dr. O. W. French and the outgoing directors for their splendid work during the past year.

The Commercial Club has accomplished a number of worthwhile things for the city and its social and business life; it has an opportunity to accomplish much more in the years to come.

O'Neill is vitally interested in the road program to be undertaken in this section following the end of the war and the Commercial Club is the logical organization to furnish the leadership for the city and community. They are now working to bring new industry and new people and new business to our town, from which all will benefit. That can be done successfully only through organization. Every business and professional man and woman in the town and vicinity should be an active boosting member.

O'Neill should also be interested in an adequate airport, so that we will be in a position to take advantage of the expected large increase in the transport of goods, mail and passengers following the war. Airlines criss crossing and routes established. Our state is now being organized natural advantages with splendid highways and bus lines operating in all directions—soon on pavement—makes us the logical terminal for this section. If we fail to assert and press our claims or if we fail to make preparations to accommodate this travel other towns with less favorable natural advantages, but with more courage and push, may outstrip us.

The daily press last week, in commenting on the municipal elections throughout the state, mentioned several towns who voted on the issuance of bonds for the establishment of airports, among them Plainview. With the present strong financial position of our city we would not have to acquire some land. It is a matter that should be investigated by our people.

The daily press last week, in commenting on the municipal elections throughout the state, mentioned several towns who voted on the issuance of bonds for the establishment of airports, among them Plainview. With the present strong financial position of our city we would not have to acquire some land. It is a matter that should be investigated by our people.

## Good Run Of Cattle And Hogs At Livestock Sale Here Monday

The O'Neill Livestock Commission Co. reports a good run of cattle and hogs. In the cattle pens there were about 225 head but the quality was plain and the prices were some stronger than a week ago. The best steer calves sold for \$12.00 to \$13.00. There were very few heifer calves in and these sold around \$10.50 to \$11.25. There were very few fat cows in—not enough to test the market. There was a nice run of milk cows with plenty of buyers ready to take them at very satisfactory prices.

The hog run was heavy Monday and they sold up to expectations with a top of \$13.35 for a few of the best and \$13.30 for most of them. About 200 pigs were in and the market was some slower—it ranged from \$10.50 to \$12.00. Sows sold for \$12.25 to \$12.35.
