T-a-l-l Tale

His 6 feet, 8 inches often causes Pitcher Mike Naymick of the Cleveland Indians to be asked the question "How's the weather up there?" On an idle day Mike is trying to convince Pat Seerey, Tribe fielder, that it is the same as with 5 foot, 9 inch teammate.

DO YOU have a large wall space somewhere in your house that looks rather bare? Why not fill it with a group of matched brackets on which you may make an attractive arrangement of bric-a-brac and trailing vines? This sketch shows a set of three brackets in a quaint old-fashioned heart design over a davenport in

the living room. The center bracket is fourteen inches wide with one of the matching smaller brackets on each side. The sketch also shows how easy it is to cut out the heart design with a sharp knife after boring holes with a brace and bit. Any school boy who has the use of a coping saw or maybe a jig saw may make these graceful brackets.

NOTE—Mrs. Spears has prepared an actual size pattern for all the pieces of this set of wall brackets, with complete directions for cutting, assembling and finishing. The lines of these brackets are so well proportioned that you will be proud to own them. Ask for Pattern No. 263 and enclose 15 cents, which covers cost and mailing. Address:
