Nebraska clodhoppers are now in the fields tossing against the bang boards an estimated crop of 328,000,000 bushels of corn. The hybrids, the tractors, the rows in "contour" and other up-to-date stuff on the farm played a part, but let us not forget the first essentials mentioned by the psal mist: "Thou visited the earth and waterest it: thou greatly enrichest it with the river of God, which is full of water: thou preparest them corn when thou hast so provided for it."

Weary and heart-sore republicans out across the valleys and mountains, come to Nebraska! Here is balm for disappointed hopes and fellowship with the remnants of Abe Lincoln's pol tical offspring. The O'Neill High School Eagles dropped their third game of the season, against five victories, last Saturday when they traveled to Neligh and played their annual Armistice Dal tussel with Neligh coming home on the short end of a 25-9 score. The Eagles tried hard and played good ball, but the Neligh squad seemed to have too much power for the Eagles, although from reports that I have heard, the game was much better than the score indicates. Although the Eagles have won five out of their eight games, there is something interesting in the fact that there are only twelve eleven man teams in the state of Nebraska which are still undefeated and among these teams are Ord, Burwell and Neligh, the only teams to defeat the Eagles trimmed Ainsworth 13-6 a few weeks back, and Ainsworth is supposed to have one of the best teams in the layer of the quota assigned for the county. The quota assigned and the state for the quotas assigned and the short of the quotas assigned and the final donations received is given below.
