RICHARDS MADE A SPEECH - and "Safety First" was born

Some years after the turn of the century, "North Western's" Ralph C. Richards delivered an address before a group of employees. His subject was, "Conservation of Men."

Richards was a crusader, in the finest sense of the word. He felt keenly the need for safety education. To him the saving of human life was a sacred duty . . . he rebelled at the easy philosophy that permitted carelessness to go unchallenged.

In 1910, thanks to Richards' zeal, "North Western" began systematic efforts to reduce accidents . . . thus the first railroad accident prevention organization came into being.

Richards' influence spread. The Father of the "Safety First" movement won recognition from cities, states, industries and other railroads. Finally, came the National Safety Council, the attainment of his long sought ambition.

Richards' dream had come true. Accidents were reduced . . . lives were saved . . . a new "Safety First" era had begun!

Today, "Safety First" is a by-word on every railroad and in all industries. The security of travelers is important; that of employees equally so. Safety measures, too numerous to mention, have been introduced. Along with faster train schedules have come protective devices, such as automatic train control, that have made train travel safer than an evening at home. In the years to come "North Western," always a leader in the "Safety First" movement, will continue to pioneer. *Safety—first, last and always!*

Will you hold a FAT-SALVAGE BEE for your country?

HERE IN AMERICA, when a neighbor needs help, it has always been the custom for all the folks to pitch in and give him a hand. Many a harvest would have been lost without the help of a husking bee.

YOUR COUNTRY NEEDS a fat-salvage bee right now! Millions of tons of fat have been used up to supply the thousands of battlefield and home-front needs in this war. And there's still a lot of war ahead!

A PLEA TO EVERY WOMAN! Our country is calling on you, the women in small cities and towns and on the farms, to save every drop of used fat. Your used fats are desperately needed to meet our country's requirements.

So scrape all pans and roasters. Skim soups and gravies. Keep your used fats in a tin can—any kind will do. Save meat trimmings and plate scrapings in a bowl; melt them down and add the liquid fat to your can.

When the salvage can is full, take it to your butcher. He'll give you 2 red points and up to four cents for every pound. If you have any difficulty turning in your used fats, call your Home Demonstration or County Agent.

Needed this year: 100,000,000 more pounds of used fats

POPPY DAY IN CHAMBERS SATURDAY MAY 26, 1945

The women of the American Legion Auxiliary will offer poppies for sale to every one of the Chambers community Saturday, Poppy Day. Each year at this time the little red poppies, made by our disabled war veterans, are worn by millions throughout the Nation. This signifies that the memory of the war dead of both World Wars still lives. Funds from the sale of these poppies are used for Veterans of World I and II and for their families including widows and orphans. No price is set on a poppy, whatever you wish to give. A poppy on the coat on Poppy Day means the wearer remembers with honor the services of the dead. Let us see a poppy on every coat on Poppy Day.
