CHAS. E. SANDALL SAYS: "HERE IS ANOTHER GOOD RECORD"

> Nebraska citizens and the beer industry can both be proud of the record made by beer retailers this year. Local licensing authorities approved 1,772 applications for retail beer licenses, and a recent check-up shows these officials denied only 5 applications—less than ½%—for reasons of unsatisfactory operations. In only eight towns did citizens appear with protests of any kind against applicants.

Working in cooperation with the enforcement officials, this Committee urged that care be exercised in granting licenses and also aided in weeding out the undeserving licensees.

Mrs. G. D. Janzing. Mrs. Herman Grothe and Mrs. Eva Johnson held a pre-nuptial shower at Mrs. Johnson's home in honor of Zelma Banks. Miss Banks received many nice and useful gifts. Lunch, consisting of sandwiches, cake and jello, was served. Miss Banks will be married next Sunday, July 22, at O'Neill to George Waddell.

Congressman Miller's Weekly Letter

The Senate, in the next few weeks, will approve the San Francisco Charter. Out of this Charter comes a framework for an international organization that holds out the prospect of an era of peace and security. The agreement is not perfect. It should, however, serve its purpose of providing a reasonable basis for the settlement of differences and the avoidance of armed conflict.

This war has put the cruel science of mass murder into a new and sinister prospective. The oceans are no longer the moats which protect our ramparts. The Charter is an attempt to stem the evil tides of misunderstanding. It provides a cooling-off period. It promises justice as a substitute for force. We have everything to gain and nothing to lose by giving the Charter our support.

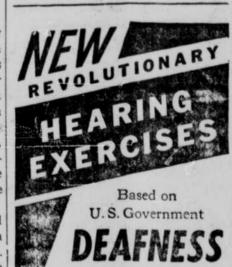

The United States has built 370 air fields in foreign countries. The cost of 36 of these was more Mr. and Mrs. Leonard Dusatko than \$413,000,000. The question and daughters called at the Joe now is raised as to who owns or may use these air fields.

Additional funds will be supplied other nations through UNR RA. Bretton Woods, Export-Import bank and 45 other agencies now employing more than 400,000 people outside of the United States. It seems that this Administration has embarked upon a program of wanton waste of American resources without any promise of a fair return. We may well be the Santa Claus of

Many complaints come from Nebraska about the shortage of meat in the harvest areas. OPA and the Agriculture Department have promised to give relief by raising slaughter quotas. I urged them to act at once. Next month will be too late. Twenty-six restaurants in Grand Island may close because the OPA refuses them sufficient food points. Our land of plenty may become a land of scarcity.

Weekly News From OPA District Office

Five more blue stamps for processed foods and five more red stamps for meat-fats, all in War Rationing Book Four became vaild July 1, M. E. Rawlings, Sioux City District OPA Director, announced this week. Each of the stamps will be worth 10 points, making a total of 50 blue points for processed foods and 50 burg, where she spent severa that became good on July 1 can be used through October 31.

The new stamps are: Blue: For processed foods, JI, KI, LI, MI AI, BI, CI, DI and EI.

Our Country Needs Still More **Used Fats...And We're the Folks** to Save them!

TN between the good news about the war these days, careful readers of the paper will see grave words about a serious national shortage that has a direct bearing on military and civilian production schedules.

Our domestic supplies of fats and oils will be approximately one and one-half billion pounds less than last year. Yet thousands of tons of fats are still needed to help make countless essentials for the battle- and home-fronts.

While country people have been doing an even better job of saving fats than the city folks, we must remember that, because of the meat situation, we are in a better position to save. That's why we can't afford to miss a trick.

So, let's save not only the big amounts from frying and roasting, but also meat trimmings, plate scraps, and scrapings. Melt them down once a week and add the liquid fat to the salvage can. Skim soups and gravies: Scrape every pan. Every drop is important.

When your salvage can is full, take it to your butcher, and get 2 red points and up to 4¢ for each pound. If you have any difficulty, call your County Agent or Home Demonstration Agent.

100.000.000 More Pounds of Used Fats Are Needed This Year!

Approved by WFA and OPA. Paid for by Industry.

You can't STOP the heat BUT...

Champlin HI-V-I . . . the new fighting aviation oil . . . can help you avoid car trouble these boiling hot,

For Champlin HI-V-I (High Viscesity Index) is refined by an entirely new dual solvent proces from 100% Paraffin Base Mid ... tinent Crude . . , the finest obtainable. This new process produces a uniform stability which resists ter-

rific temperatures. It's the reason why with Champlin HI-V-I in your crankcase, you run less risk of motor failure . . . less chance of scored pistons, stuck rings and valves . . . during the hottest weather.

So from now on buy Champlin HI-V-I . . . the new fighting aviation bil . . . from your friendly Champlin dealer.
