The above table bears out the old adage that "where there's a will there's a way." In this instance it applies to the question of stretching the limited supply of meat that Mrs. Housewife is able to buy under wartime rationing. Here are just a few ideas that may be used in preparing three different pork cuts — sausage, chops, hocks or knuckles, and ham — to make the meat go further. There are many other appetizing ways to extend pork, as well as beef and lamb.

LOW - and Behold!

Electric Rates in Nebraska are the Lowest in History -

More Advantages at Lower Cost

IT IS a fact that, although virtually everything else you buy costs more today, your electric rates are the lowest in history. You can actually use two or three times as much electricity as a few years ago for less money. There's a reason for this too. . . . It's the economies of the state-wide group operation of your Consumers Public Power District, which gives to the people of Nebraska the benefits, have made possible continual reductions in electric rates.

Nebraska's abundant, low-cost electricity brings more progress for Nebraska. . . . more jobs . . . more opportunities for Nebraskans.
