**Point Changes Made On Meat, Canned Food**  
 Six kinds of canned and bottled foods will cost more ration points, but citrus juice and catsup will have lower point value, it was recently announced by the OPA, right after ordering reductions in values of nearly all cuts of beef, veal and lamb for the period from last Saturday through September 1. Grapefruit juice and blended orange and grapefruit juice in 46-ounce cans will require 10 points instead of 20, while 10 points will buy two No. 2 cans of such juice. The value previously was 10 points for each No. 2 can.  
 New point values for the most widely used containers of the processor foods being changed are: Spinach, No. 2 cans, 30 points, up 10; No. 2 1/2 cans, 50 points, up 20. Asparagus, No. 2 cans, 30 points, up 10. Applesauce, No. 2 cans, 20 points, up 10. Apricots, No. 2 1/2 cans, 50 points, up 20. Grape juice, pints, 40 points, up 10; quarts, 70 points, up 20. Grapefruit juice and blended orange and grapefruit juice, 46-ounce cans, 10 points, down 10 points; No. 2 cans, 10 points for two cans previously 10 points a can. Tomato Catsup and Chili Sauce, 14-ounce containers, 10 points, down 10 points.  
 "Definite improvement" in meat supply and distribution was reported by OPA, who announced last week reductions in red point values for almost all cuts of beef, lamb and veal beginning last Sunday. With one exception, the reductions amount to 1 and 2 points a pound. The reduction for boneless rump roasts is 3 points. Most steaks are cut 2 points.  
 Present point value of all cuts of pork, canned fish, fats and oils, and dairy products will remain unchanged. Creamery butter continues at 16 points, which value was assigned July 15. OPA said the reduction will have about the same effect as an addition of 10 points to the 50 validated for each ration book holder.
