**A Contribution to Good Government**

Along with the public, and public officials, the brewing industry takes an active interest in seeing that provisions of Nebraska's excellent liquor control laws are properly observed wherever beer is sold.

The Nebraska Committee, with its program of self-regulation, centers efforts chiefly on preventing infractions before they occur. Retailers are instructed as to laws and regulations, and frequent inspections of retail outlets are made.

By easing the work of enforcement officials, by reducing the need for penalties and by helping to protect the best interests of the public, these efforts represent a contribution to good government.
