

THE OLD JUDGE SAYS...

ART: "Saw you at the movies last night, Judge. That was quite a weekend that alcoholic went through, wasn't it?"

OLD JUDGE: "Sure was, but I'm afraid most people won't really understand it."

ART: "What do you mean, Judge?"

OLD JUDGE: "Simply this. That poor chap was really a sick man...not just a drunk. Studies by famous psychiatrists and the medical profession show that alcoholism is not caused by a craving for alcohol...it is usually the result of some deep-rooted social, physical or emotional condition. If that fel-

low had not turned to alcohol for escape, he would have turned to something else."

ART: "Are there many that get in that condition, Judge?"

OLD JUDGE: "Fortunately not, Art. Scientists at a great university have stated that approximately 95% of the people who drink do so sensibly. Only 5% are immoderate at times. In that 5% is the small number known as alcoholics. And the beverage distilling industry which does not want a single person to use its product immoderately, is cooperating fully in the solution of this problem."

Notice to Farmers and Stockmen

Mr. J. L. Pruden will buy your fat hogs at highest market prices EVERY SATURDAY AFTERNOON at the O'Neill Livestock Market, between the hours of 12 noon and 5:30 P.M. Call No. 2 any time after 11:30 A.M. Saturdays, and get his bid. Although all major packing plants are close by strike, some independents are still operating and taking hogs—BUT FOR SAFETY SAKE BETTER CALL FIRST BEFORE BRINGING IN HOGS. . . . Demand was excellent for all classes of stocker and feeder cattle at last Tuesday's auction in Atkinson. Prices were equal to the season's best time. Even if the strike continues, it should not affect the market for stockers and feeders; so bring in any you have to sell next Tuesday. . . . But as to fat hogs, if the strike is still on, you had better phone first before loading. Call Atkinson 84, our expense. Thanks!

Atkinson Livestock Market, Atkinson, Neb

The Story of Progress

McCormick was 1800 years late

Cyrus McCormick is generally credited with developing the first mechanical reaper. But, if we can depend on what is written, an ox-powered mechanical reaper, of a sort, was in use in Gaul about 23 A.D. However, it wasn't until about 1800 years later, in 1831, that McCormick tried out his machine which is generally credited as the first modern attempt to improve harvesting methods. Many improvements followed until today efficient, self-propelled machines harvest thousands of acres of grain to feed people in all parts of the world. It is the true pioneering spirit of America — to recognize a need and provide the solution.

That spirit prevails here in Nebraska. Forward-looking Ne-

braskans saw a need for a unified state-wide electric system which would allow communities—working together—to enjoy greater progress and better living. As a result, Your Consumers Public Power District was created to provide abundant electricity for industrial development, to help support irrigation and flood control and to give to Nebraska farms and homes greater electrical advantages at lower cost. Through this efficient system, Nebraskans people themselves, Nebraskans served by Consumers Public Power District are realizing the benefits—greater community progress, more opportunities and better living at the lowest electric rates in history.

BUBBLES SEZ—

Now that those lovely nylons are on the way back, the trick is finding soaps to wash 'em in! Best way to fix that is to keep turning in the USED PADS needed to help make soaps. Remember, where there's fat, there's soap. Keep saving yours!

CARDINALS DEFEAT SHAMROCKS 38-35

Sunday afternoon the St. Mary's

Cardinals traveled to Spalding where they met the Spalding Academy team with a decisive victory for the Cardinals. During the first quarter the Cards, as yet, were still unable to outwit the Shamrocks, both teams making 6 points.

In the second quarter the Cards came on the floor shooting very much of the time, with Jim Merriman making many long shots from the center of the floor. During this quarter the Cards made an additional 11 points whereas the Shamrocks made 9.

After a ten minute rest, the Cards again came on the floor with much intercepting of passes from Spalding by Wallace and Condon. During this quarter the score was again tied up for a few seconds, but it did not stay long that way because of the wonderful shoot-

ing ability of the boys shown in this game. The score as this quarter was 24-20, with Merriman and Froelich each having 10 points.

The final quarter was one of great commotion for the score was so close throughout the game. Again during this quarter the Spalding Academy team was able to make enough baskets to tie the score up. When there was but one minute left to play the score was 35-35, but one of the Spalding boys fouled against Ed Condon giving him one free throw and with Froelich making another basket left the score 38-35 for St. Mary's.

Froelich was high point man for St. Mary's with 16, followed by Merriman with 14, and Pfeifer for Spalding with 13.
