## THE OLD JUDGE SAYS...

HENRY: "I've heard that same thing several times lately... that alcoholics are really sick people. It was news to me. Do you agree with that statement, Judge?"  
OLD JUDGE: "Yes, it's true, Henry. It's no notion of mine... it's a statement made by scientists who have studied the subject."  
HENRY: "What did they find out, Judge?"  
OLD JUDGE: "Well, as a result of their medical research, they found out that approximately 95% of the people who drink, drink sensibly. 5% do so unwisely, at times."  
Included in that 5% is the small percentage known as alcoholics."  
HENRY: "But why are they called sick people?"  
OLD JUDGE: "Because it has been discovered that, in many cases, excessive drinking is a symptom of some physical or emotional maladjustment... not the cause of it."  
HENRY: "Now I understand it, Judge. I am glad to hear of the modern approach to this problem and that so much is really being done to help these folks."
