HAPPY BILL

INAUGURATE RETURN OF WORLD WAR II DEAD

President Truman inaugurates the program for return of World War II dead in a message which he hands to the Quartermaster General of the Army, Maj.-Gen. T. B. Larkin. This ceremony at the White House was attended by Under Secretary of War Kenneth C.

Royall. The President's message states: "In deep and everlasting appreciation of the heroic efforts of those who, in keeping their country free, made the supreme sacrifice in World War II-the entire Nation has been dedicated to disposing of the mortal remains of

those honored dead in a manner consistent with the wishes of their next of kin.'

This message is part of the brochure which will be sent to next of kin by the Office of the Quartermaster General at the time next of kin are officially requested to state their wishes regarding final burial.

PRAIRIELAND ... TALK

Route 5

LINCOLN-With the retirement of Mr. Griswold, one country editor passes from the executive chair at the statehouse and another takes his place. Mr. Peterson vacates the editorial chair in the little town of Elgin, in our neighboring county on the east, to be the third or fourth newspaperman to serve as governor of Nebraska in recent times.

Mr. Griswold has been an able executive with probably as few mistakes as anyone could escape with in three terms. About the only criticism out on preirieland has been the barber bill and the transfer of old age assistance funds. His greatest political blunder was to oppose Mr. Butler for the United States Upon the whole, Mr. Peter-

son takes over the affairs of state with a high mark of efficiency to measure up to.

In asking a few cents more per hour to be added to the rate of pay has union labor the right answer to balance the household budget? As I view it, not a higher wage scale is the answer, but let the crafts-man have the full benefit of all he earns. Out of every \$100 the workman who has no dependents earns, \$19.80 with-holding tax and \$1 social security is taken from him, a total of \$20.80. In other words, he receives but \$79.20 of the \$100 earned, and those with dependents are affected more-or-less.

The \$1 social security he approves of because it goes into an annuity fund for his benefit later in life. The \$19.80 goes to the government as income tax. All citizens approve of reasonable demands on them to support the government under which they enjoy life's privileges, but hasn't the country become involved in a program of vast spending that should be decapitated in the middle, to the end that all citizens should more fully enjoy the fruits of their labors.

The benefits of your Consumers Public Power District cannot be measured by its financial achievements alone or by the service it provides. Its operation has had a definite effect on the industrial development of our state. Electric rates, now among the lowest in the nation, are attracting valuable industry to Nebraska. And, through its purchase and distribution of electric power produced by Nebraska's power and irrigation projects, Consumers carries on a valuable role in helping to support irrigation and vital agricultural progress which brings millions of dollars of additional income to Nebraska communities.
