

HOUSEHOLD HINTS

If decorative candles become soiled wipe them gently with absorbent cotton dipped in alcohol.

A piece of medium sandpaper placed over the kitchen sink will come in handy more than once for cleaning pots and pans.

Instead of using tacks to fasten the edges of oilcloth under the table or shelves use adhesive tape. It looks neater and is easier to do.

Egg beaters should be washed immediately after using. Keep cogs out of water.

To clean bottles, jars, or cruets thoroughly, place egg shells and warm soapy water in them and shake well. Clean in no time!

Happy Relief When You're Sluggish, Upset... WHEN CONSTIPATION makes you feel puny as the dickens, brings on stomach upset, sour taste, easy discomfort, take Dr. Caldwell's famous medicine.

DR. CALDWELL'S SENNA LAXATIVE... WHY Jumping Beans Jump? Mexican jumping beans "jump" because of the movements of moth larvae spinning their cocoons inside the beans they infest.

DR. CALDWELL'S SENNA LAXATIVE... Drying Umbrella: Leave umbrellas open to dry. When folded damp, they are likely to mildew.

Wind Cooling: Wind is far more important than temperature to the cooling of the body.

Spoke for Agriculture: George Washington, in his last message to congress on December 7, 1796, recommended the use of public funds to aid agriculture.

Smuggled to Caesar: A famous legend of antiquity says that Cleopatra instructed her man-servant to carry her into Julius Caesar's presence wrapped in a carpet.

WEEKLY NEWS ANALYSIS CIO Girds for New Wage Drive; U.N. Closes Meet in Harmony; More Rental Units Planned

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

Elected to head interim French government, 74-year-old Leon Blum receives traditional embrace from Vincent Auriol, president of national assembly.

LABOR: New Wage Pattern

Hardly had the hub-bub occasioned by the CIO's adoption of Economist Robert Nathan's formula for higher wages within current prices died down than United Automobile Workers hit for a pay boost of 23 1/2 cents an hour to compensate for rising living costs in 1946.

Robert Nathan

Gist of Nathan's report, to be used as a basis for CIO wage demands in coming months, is that record earnings allow industry to jack up pay appreciably while maintaining existing price levels.

In view of the high earnings of industry and the gradual transformation of a seller's into a buyer's market, business leaders will hesitate before adding additional wage increases onto prices, Nathan said.

UAW Demands: In subscribing to Nathan's theory that industry can hike wages without boosting prices, UAW Chief Walter Reuther declared that corporation profits are running at a rate of 15 billion dollars a year in comparison with 10 billion during the war and 5 billion in the prewar period.

While business profits have been rising, consumer purchasing power has been diminishing, Reuther said. During 1946, living costs have climbed another 18 per cent, necessitating the 23 1/2 cents an hour wage raise for the 900,000 UAW members to maintain their "take-home" pay.

FRANCE: Blum Comes Back: Leon Blum, whose Popular Front government in the middle '30's threw France into a turmoil, returned to head the new French interim government as the compromise choice of the left and right parties of the nation.

Though Blum's Socialist party commands only 100 seats in the 600 odd national assembly, the dominant Communist and Popular Republican parties agreed on his leadership after failure to work out a satisfactory deal between themselves for sharing the government.

Reversing his liberal policies, which led to a wave of sitdown strikes and the bitter opposition of capital in the '30's, Blum announced that he would work for stringent economies during his brief term before a permanent government is formed. He also reiterated French demands for internationalization of the Ruhr and Rhineland.

RELIGION: Donations Lag

Although the U. S. public's church donations have scored a new high by passing the billion-dollar-a-year mark, they still trail behind consumer outlays for movie and theater tickets, amount to one-third of the nation's annual bill for tobacco, and one-eighth of its outlay for alcoholic beverages, according to Northwestern National Life Insurance company.

U. N.: Meets Test

Having "met the test" of resolving major issues and differences, to quote U. S. Delegate Warren Austin, the United Nations general assembly adjourned until next September with this record of accomplishments:

—Acceptance of an \$8,500,000 gift from John D. Rockefeller Jr. for purchase of a 17-acre site in Manhattan for a permanent U. N. home.

—Adoption of a resolution instructing the security council to devise a system of international disarmament to be presented to member countries in treaty form.

HOUSING: New Emphasis: In line with findings that most home-seekers are looking for rental rather than purchasable dwellings, the administration's new housing program places emphasis upon construction of rental property.

Whereas a maximum of \$80 a month was set on rental of individual units under the veterans' emergency housing program, rentals now will be limited to an average of \$80 for a building.

With the principal demand for more dwellings, any person will be permitted to build a house, thus making an apartment or old building available. Vets will continue to get first crack at homes put up for sale or rent, however.

INDIA: Troubles, Troubles: Mother India, long sorrowing for freedom, could see nothing but trouble ahead as she planned the achievement of her independence after centuries of British domination.

For freedom seemed to mean different things to the powerful political factions within the country: To the majority Congress party chiefly embracing the Hindus, independence represented a unified nation; to the minority Moslem league, it stood for "pakistan" or self-rule of Mohammedan provinces.

MILITARY: Unify Commands: With plans for a unified command temporarily shelved by navy opposition, the services agreed to the wartime practice of naming a single chief for each strategic world area to increase the efficiency of operations and avoid the confusion of Pearl Harbor.

Under the setup, the theater commander is responsible directly to the joint chiefs of staff in Washington. Subordinate army and navy officers remain at the head of their respective units. Strategic air forces not assigned to theater commanders are at the disposal of the chiefs of staff.

General of the Army Douglas MacArthur heads the Far Eastern theater comprising Japan, Korea, the Philippines, Marianas, Bonins and Ryukyus. Other area commanders include:

PACIFIC: Adm. John H. Towers. ALASKAN: Maj. Gen. H. A. Craig. ATLANTIC FLEET: Adm. Marc Mitscher. CARIBBEAN: Lt. Gen. Willis D. Crittenden. EUROPE: Gen. Joseph T. McNarney.

FOOD: Full Tables

After counting the bountiful yields of 1946 farm production, the department of agriculture told Americans that they would eat well again in 1947.

By intensive tillage of substantially smaller acreage than prevailed in the '20's, farmers produced record crops of wheat, corn, rice, potatoes, soybeans, tobacco and garden vegetables; near record yields of grapes, peanuts and oats, and better than average harvests of sweet apricots, sugar cane, sugar beets, dry peas, sorghum and hay.

If Americans will have plentiful supplies of cereals, vegetables and fruits, they also are promised a full table of meat. The department reported record numbers of cattle on feed in grain belt feedlots.

Production Pattern

The department's final estimate of 1946 farm output suggested the shifting pattern of production within the past decade. While such old American agricultural standbys as wheat, corn, potatoes and tobacco showed appreciable increases in 1946 over the 1935-'44 average, rye was down to 18,685,000 bushels from 42,356,000, and cotton dropped to 8,482,000 bales from 12,553,000.

Because of changing needs, emphasis was placed on other crops. To make up for a drop in imports, rice production was boosted to 71,520,000 bushels from the 10-year average of 55,257,000; to meet the demands for industrial and edible oils, soybean yields jumped to 196,725,000 bushels from 103,457,000, and peanut output soared to 2,075,880,000 pounds from 1,587,964,000; and as part of the program to raise nutritional standards, the harvest of dry peas increased to 6,926,000 bags from 4,680,000.

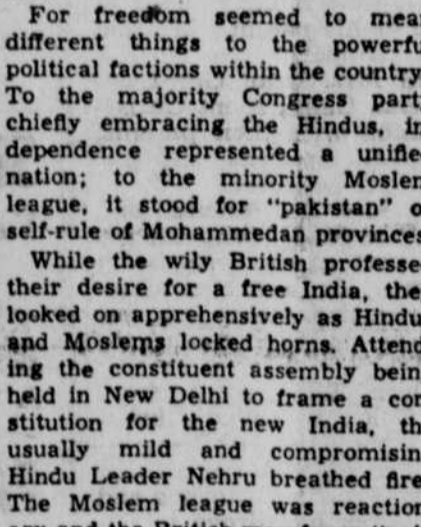

SPORT: Gambling Menace

In the early 1800's, American youth held up the statesman as a tin god; in the late 1800's, it was the empire builder, and since the early 1900's, it has been the athlete. Most touching example of the faith that the average American boy put in his athletic hero involved the young kid who clutched at "Shoelless Joe" Jackson's sleeve when that great outfielder emerged from construction over his part in the Black Sox baseball scandal of 1919.

Playing the game on the level, Frankie Filchook (with ball) leads Giant attack against Bears. To say so. By turning down alleged bribes from a gambling front, the two grid stars saved pro football from disgrace.

Concrete Water Tank: A concrete livestock watering tank is watertight, furnishing an ample supply of fresh water in readily accessible troughs. A concrete pavement six feet wide around the tank is highly desirable to provide a clean, mud-free platform for livestock to stand on.

That's your grandfather, son. He raised a record crop of soybeans back in 1943.

TOURIST TRADE: Booming Again

Total tourist expenditures this year will exceed the six billion dollars of 1940 despite limited production of automobiles, a study of the tourist trade by American Road Builders' association reveals.

Mastitis Control Methods Important

Bactericidal Agents Favorable Response By W. J. DRYDEN

Mastitis, a communicable disease, can be measurably checked by identification of the carrier cow, followed by proper control and treatment.

A compound for treating chronic mastitis recently has been reported by Utah agricultural experiment station. It is colloidal silver oxide, 5 per cent, suspended in mineral

oil. This treatment is effective only against mastitis caused by streptococci.

In injecting the compound, wash the udder with a chlorine solution. Milk the infected quarter dry and disinfect the end of the teat with tincture of iodine. Ten cc. of the compound is injected into the teat canal, and by massaging, the liquid is pressed upward into the milk cistern and into the entire quarter.

Other recent compounds proven satisfactory for various types of mastitis include tyrothricin, sulfanilamide in oil and penicillin.

LOOKING AHEAD I NEED CLOTHES MADE OF THAT MATERIAL... RIP VAN WINKLE, YOU'RE A SIGHT.

COTTON WON'T ROT OR MILD-EW. A NEW COTTON FABRIC THAT WON'T DISINTEGRATE AFTER YEARS OF EXPOSURE HAS BEEN DEVELOPED BY THE DEPARTMENT OF AGRICULTURE.

Concrete Water Tank: A concrete livestock watering tank is watertight, furnishing an ample supply of fresh water in readily accessible troughs.

That's your grandfather, son. He raised a record crop of soybeans back in 1943.

Slant the Farrowing Floors to Save Pigs

An ingenious lifesaver for little pigs—as simple as it is practical—is the result of an accident in Kentucky. The results were so fortunate that the U.S.D.A. is commending the method widely as a good way to increase efficiency in meat production.

Soiled Clothes The sooner soiled clothes are washed, the less they have to be rubbed; nothing is harder on fabrics than ingrained dirt and perspiration.

Alaska Weather Although Alaska is usually thought to be a cold country, the capital city of Juneau had only 53 days of zero weather in 33 years. The temperature on the coldest of these days was 15 degrees below zero.

Ironing Burden Ironing burdens are considerably lightened by a liquid combination starch and bluing which does away with the need to mix and boil starch.

Almanacs Long-Lived in U. S.; One in 250th Year

Among the oldest publications in the United States are the local almanacs the contents of which appeal chiefly to farmers, says Collier's. For example, Gruber's Hagerstown Almanac is now in its 149th year, the Old Farmer's Almanac in its 154th, Daboll's New England Almanac in its 174th and Foulsham's Almanack in its 250th year.

Sublime to Ridiculous

A slightly tipsy gentleman walked into the telegraph office, took a pencil, spent three or four minutes in deep thought, and wrote this message to a friend in St. Louis: "Tra la, tra la, tra la, tra la." He signed it and presented it to the lady behind the counter. After checking it, she said: "That will be 64 cents." The gentleman paid her and she said: "You used only eight words." "What would you suggest adding?" he finally asked. "Well, how about just adding 'tra la,'" she said. "No," he said firmly, "that would just make it sound silly."

The Prize-Winning Crocheted Runner

Pattern No. 5308 THIS exquisite crocheted runner was made in Louisville, Kentucky, and won the prize in a nationwide crochet contest. It is 20 by 9 inches and can be used as a dining table runner, buffet runner or on a bedroom dresser.

To obtain complete crocheting instructions for the Prize Winning Runner (Pattern No. 5308) send 20 cents in coin, your name, address and the pattern number.

SEWING CIRCLE NEEDLEWORK 530 South Wells St., Chicago 7, Ill. Enclose 20 cents for pattern. No. Name Address

This Home-Mixed Cough Relief Is Truly Surprising

So Easy. No Cooking. Big Saving. You may not know it, but in your own kitchen, you can easily prepare a really surprising relief for coughs due to colds. It's old-fashioned—your mother probably used it—but for real results, it's hard to beat. First, make a syrup by stirring 2 cups granulated sugar and one cup of water a few moments, until dissolved. No cooking needed. It's no trouble. Or you can use corn syrup or liquid honey, instead of sugar syrup. Then get 2 1/2 ounces of Pinex from any drugstore. This is a special compound of proven ingredients, in concentrated form, well known for quick action in throat and bronchial irritations. Put the Pinex into a pint bottle, and fill up with your syrup. Thus you make a full pint of splendid cough syrup, and you get about four times as much for your money. It never spoils. Children love its pleasant taste. And for quick relief, it's a wonder. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easy, and lets you get restful sleep. Just try it, and if not pleased, your money will be refunded.

KID O'Sullivan SAYS For firmer grip when others slip ask for SOLES as well as Heels by O'Sullivan

AMERICA'S No. 1 HEEL and sole Tough and Springy
