

VALENTINE AND CHADRON SHIVER

Valentine was the coldest point in the state Sunday night as the mercury dipped to 1-degree below zero. The previous night Chadron reported 8-below. In O'Neill, however, Government Observer Elmer Bowen reported a 7-degree reading Sunday—the coldest of the week. Twice during the week the temperature dropped to 9.

Precipitation for the week has exceeded a half-inch and dripping skies, overcast for two weeks, promise more precipitation.

A high wind last Thursday night broke a large plateglass window at the Rollie Truax general store at Redbird.

The Thanksgiving weather outlook predicts generally fair weather.

The week's weather summary, based on 24-hour periods ending at 8 a. m. daily, follows:

HUGHES IN SURPRISE FLIGHT

When Howard Hughes, multimillionaire sportsman and industrialist, took his gigantic plywood flying boat out on the waters of Long Beach, Calif., harbor, he was only supposed to be making a few taxi runs. But on the third run, surprising the thousands

of cheering spectators, he put down the flaps and the world's largest airplane crept into the air and flew for about a mile at an altitude of 70 feet. At bottom left is shown the immense tubular interior of the flying boat. The beach balls are to give added buoy-

ancy in case the hull springs a leak. Howard Hughes, who is the center of interest in the senate war contract investigations, is shown (bottom right) looking over the array of instruments on the panel of the plane.
