## DECORATOR

Designed by DAYSTROM

Designed for comfort, beauty and utility! Yes, and practical, too. The oval-end center extension table is just right for company meals—expands to 35"x 62"—room for six comfortably. The top is Daystromite—the laminated plastic, for your service. It's resistant to heat, scratches, chipping, stains. A swish of the cloth brightens the heavily-chromed tubular steel legs. Four-legged chairs in rich 2-toned Duran plastic upholstery.
