

Consumers Makes First-Half Payments

Tax checks totaling \$154,058.89, which represent the payment of first half of 1948 taxes by Consumers Public Power district, are being prepared by the district's treasury department.

The checks are being sent out during the first part of November to county treasurers throughout the area served by the district.

Communities in 71 Nebraska counties will receive the payments which constitute real estate and personal taxes, or in lieu of taxes, which are allocated to city county, state and school tax funds. Nearly 48 per cent goes to public schools.

Since Consumers tax payments are made semi-annually, payments totaling a similar amount will be made in April covering the second half taxes. Total tax payments for the year amount to \$308,117.59.

Of the \$154,058.89 being paid in November, \$29,045.75 goes to communities in 12 counties in the Western System and \$125,013.14 goes to communities in 60 counties in the Eastern System.
