**Phoenix Sunshine
Is Commented On**

By A. STROLLER

PHOENIX, ARIZ., Nov. 30—An entire week was recently observed in this city as Phoenix Sunshine Week with various kinds of festivities. It was sponsored by the Chamber of Commerce.

The observance was certainly timely for it is its sunshine that has made this country famous all over the world. It has many other assets and attractions, but its sunshine is outstanding.

Sunshine is bright, beautiful and healthful. No wonder people flock to Phoenix from all parts of the United States every winter to enjoy it.

In some parts of the country, there is very little sun-

shine at this season—just one dark, gloomy day after another.

The almost incessant sunshine of Phoenix makes the Summers uncomfortably hot, but the winter season is delightful. It is understandable that the Phoenix Chamber of Commerce likes to publicize it.

Yes, sunshine is beautiful, but it is more than that to some people. To them, it is a matter of life and death.

I received a rather pathetic letter from a Nebraska woman the other day, asking about Phoenix and its sunshine.

She said the doctors had told her husband that, if he didn't leave that climate at once and go to a warm, dry climate, he would die. Naturally, she was very anxious.

I gave her all the information I could and I hope the

husband—an old neighbor—may find help as so many other people have done.

**Pound Lectureship
Campaign Launched**

Frederick M. Deutch, of Norfolk, chairman of the Roscoe Pound lectureship campaign in this area, has announced appointment of the following who will serve as county representatives in this section:

Holt—William W. Griffin, of O'Neill; Antelope—Ralph M. Kryger, of Neligh; Knox—Roscoe L. Rice, of Creighton.

Purpose of the campaign is

to raise \$50,000, mostly from members of the Nebraska bar, to establish a continuing lectureship at the University of Nebraska in tribute to Roscoe Pound, world-famous jurist and scholar.

Pound, a native Nebraskan, served as dean of the university's college of law from 1903 to 1907, was a member of the Harvard law school staff for 35 years, and now at 78 is directing a complete overhaul of the judicial system in China.
