

City Council Orders Six Arc Lights At a Cost of \$8 Per Month Each

61 YEARS AGO
December 8, 1887

G. C. Hazelet, county clerk elect, has returned from a recent visit to his old home in Guthrie county, Ia., and will enter at once the office so that he may get the run of things before assuming his official duties. He looks fresh after his visit and ready for a hard fight if necessary to hold the

position to which he was elected by the people.

H. J. Maydole arrived in O'Neill Tuesday evening from North Bend, and will make this his permanent home. He has the agency for the Deer Creek, Wyo., coal, and will soon place it in the market here. This company has just begun shipping their coal and is now ready to supply the towns along this line of road. Mr. M. claims the coal to be equal to the Rock Springs coal and he will sell it at \$7 per ton.

Died at her home near Sioux postoffice on Friday evening, December 2, 1887, at 9

"Where The Big Bands Play"

KEEPING SCORE OF RICE DELIVERIES . . . Lt. Col. Hubert G. Schench, of Palo Alto, Calif., records the latest percentage of the rice delivery quota on a symbolic bridge erected in downtown Tokyo to spur crop collections. Moving across the bridge is a figure representing the Japanese farmer. Its progress across the bridge from the countryside to the city indicates collections to date of this year.

o'clock Mrs. Samuel Axt aged about 24 years. She was sick but a short time. The funeral took place at the Menonite church on Monday of this week. Mr. and Mrs. Axt had been married but about a year and this comes as a very severe blow indeed to Mr. Axt.

H. Lacy a lawyer from Sioux Falls, S. D., made us a call last Saturday and procured a map of Holt county. Mr. Lacy has land in this part of the country and thinks Holt county ahead of any place for stock raising he has seen anywhere in the West.

50 YEARS AGO
December 8 1898

G. W. Johnson, of Omaha, treasurer of the Omaha Electrical Supply and A. Minnick, of Falls City, were in the city the first of the week. The Omaha company own the electric light plant now in this city and Mr. Minnick came here with the intention of buying the plant provided he could receive sufficient business here to pay him for operating it.

They made a canvass of the city Monday and found that most of our citizens wished the

light and signed for a good number.

On Tuesday evening, the city council held a special meeting, deciding to take six arc lights for the city at a cost of \$8 per month each.

They were well satisfied with the outlook and left for Omaha Wednesday morning where Mr. Minnick will make the necessary arrangements for the purchase of the plant and expects to return to this city about Christmas and as soon as possible thereafter will start the plant. He expects to have it in running order by January 15. So once more the love sick youth and the loving maid will have to seek the shady streets to bill and coo and murmur loving pleasantries to each other.

But even with that disadvantage it is a good thing to have the lights.

40 YEARS AGO
December 3, 1908

The Golden building on Douglas street is about complete and is a fine specimen of what can be done with cement blocks. Though not the largest, it is the most complete and modern store building in town, well constructed and handsomely furnished. The cement work was all done under the supervision of Daniel Burr, who is associated with Mr. Golden in the manufacture of cement blocks and the fine building they have erected ought to prove a strong advertisement for their cement blocks. The building is divided into two apartments, with basement finished in cement below. The west room will be occupied by R. R. Morrison's grocery and the east room by M. M. Sullivan's dry goods store.

When district court convenes on December 14, it will have a little more pleasant surroundings than heretofore. The embossed tin ceiling of the court room has been painted and the walls newly papered. There are no big law suits on for this term of court, the docket being one of the lightest for many years. Some eight or ten minor criminal cases appear on the docket.

The latest talk of a new hotel has it that the Jake Pfund building across the street from the opera house, will be enlarged and worked over to hotel proportions. So far nothing definite can be stated as to the proposed enterprise other than that such a proposition is being considered by some of the business men.

GIRL SCOUT NEWS

TROOP II

Our regular troop meeting was held on November 29 after school in the school lunch room. The attendance and the dues were taken.

Our next meeting will be held Monday after school in the school lunch room. — By Mildred Crabb, troop scribe.
